Bob Thomas passed into the higher realms at 8 a.m. on 8-8-2015 (which equals 8). On Sunday the 9th he came to me in a vision to tell me and show me how well he is doing. He lived the last two weeks of his life without food or fluids. The doctors were amazed. St. Germain said that they were feeding him information in the higher frequencies and that he passed through much of what many people experience after passing before he left his body.

He came by (energetically) on Tuesday the 11th and knocked a couple of crystals off of my bookshelf to get my attention. Dorian and I were sitting in the den later that day and we kept hearing noises like crystals being moved. Dorian said, "Is Bob here?" I said, "Bob?" and he said, "Hi! just checking in. I am looking in on everyone."

Linda is doing well and says that it feels like she is wrapped in a warm blanket of love. She said this has not been at all what she expected to experience. St. Germain keeps saying that even death is changing and it will become much more a celebration of life with the Afterlife blending with physicality. Thank you for your prayers and well wishes.

Linda says that Bob is giving her "nudges" forward in her own creative ventures. She says that the support is wonderful.

We still do not have the siding on our home. We are waiting for replacement siding because the company sent the wrong siding to replace the first siding that got lost. Does that sound complicated? We think so, too.

It is still hot here, but it feels like an early fall. The nights are getting cooler and we have been having a lot of overcast skies. As the fires west of us are coming under control our skies are much clearer.

Dorian and I both are experiencing a deepening of the connection internally to spirit. Little shifts, sometimes noticeable changes in perception and more feelings of upliftment. St. Germain is certainly giving much more support to any and all who are willing to accept it.

My daughter Sarah and her fiancée are coming to visit on September 5 and my birthday is on the 6th so we will celebrate. Time feels so different now. I will be starting out on my 74th year and I feel so grateful for the wonderful, full life that I am experiencing. I have beautiful children, grandchildren and great grandchildren. My intentions for everyone would be that they could find in their lives and within self the delight of how the Revelation changes are lifting us up. Sometimes the shifts are very uncomfortable and sometimes the energy feels stuck, but when we allow it to move new things are revealed that are beyond anything I could have dreamed. The challenge is to find the joy when it doesn't seem to be there; it truly always is if we focus on finding the good.

We drove out to the Wind River Reservation this afternoon and went to Sacajawea's grave. She is buried in a cemetery that is not too far from where we live.

This statue of Sacajawea has been recently erected in the center of the cemetery.

We also saw a large herd of antelope that this mother and baby belong to, grazing in a field that we passed on our drive. Wyoming is such amazing diverse country. We love living here.

St. Germain's continuation of the "Personal Growth" package is generating a lot of interest and excitement. He really does give personal instruction in the areas of your life where you may feel stuck or confused. He does not mind going over important points as many times as you require to discuss them. St. Germain is direct, patient, funny and will not allow us to slide out from under an important understanding. He sees how the EGO wants to distract or cause fear to keep the forward motion from moving. St. Germain's most sincere desire for us is our own recognition of our Mastery—to feel it and live it for ourselves.

Each month you can get the Teachings, Q & A and a one hour private session with St. Germain to develop your personal evolution in spirit. The cost will be \$120 per month with a six month commitment which is a great deal as a one hour private session is \$200 normally. Just imagine spending an hour of valuable time each month discussing anything about your growth that you wish with the Master. We have the good fortune of spending time with him regularly and it is such an up lifting experience.

Fall Intensive

We invite you to join us here in Lander for our fall intensive, "Your Life is Your Mastery". "St. Germain lifts us higher into the ownership of ourselves. Living present and aware, rather than wandering in the fog of the Illusion, we can realize who we truly are and for the first time in eons live ourselves REAL. Our life is a Master's design and we are creators of high art in conjunction with the God self within. Come and move through another level of awakening with us. Experience the beauty of the earth in the foothills of the Wind River Mountains and the exhilaration of the wonderful messages that St. Germain brings us.

The intensive is \$300 for the week end. It will be November 14-15. (Please note that we had the wrong dates in the July and August newsletters).

CDs and mp3s will be available.

Our group for September is “Recognizing the Changes Within”. We have been outer-focused for so long in the Illusion that looking within can be difficult and even fearful. The EGO always wants us to see what others are doing and make judgments about them and ourselves according to old guidelines that no longer fit. Everyone is changing. Many people feel the changes and do not understand what is occurring, while there those who are realizing that they are truly making outstanding shifts into higher awareness. St. Germain makes suggestions and gives assistance to help us recognize what these inner changes are bringing us.

The group is at 2 p.m. Sunday the 20th at our home. There is the option to call-in. If you would like to join us please let us know by the Saturday evening before.

CD's can be purchased on the website at [Click Here for 2015 Groups](#)

Our Teaching with the Master for September is “Motivation without Force”. We have been so accustomed pushing to accomplish everything, from the need to do more all of the time to the competition to get ahead and succeed. In the push and shove of life we often lose the drive to create in the force of “doing”. When we come home to our inner self we find the spirit of life never went anywhere. We still can have the motivation to move forward without the force of having to over achieve. Love provides the canvas upon which we can design our lives and live them well.

The call-in for the Teaching is on the second Wednesday evening of each month at 7 pm MT.

Our call-in for the Q & A is the fourth Wednesday evening at 7 pm MT.

If you haven't had the experience of the Teachings that St. Germain is offering this year they really help us to understand what is going on. It just might be worth your while to check them out. The deep healing power of the Master is there to experience again and again as you listen to the awesome wisdom that he brings. CDs are \$15 for each set—Teachings or Q&A. It is \$25 to call in one time or \$40 for both sessions each month. Postage and handling are separate.

ASTROLOGY

NEW MOON-September 12-13 (Solar Eclipse)

The New and Full Moon eclipses are powerful markers of beginnings and endings in our lives. The word “eclipse” comes from the Greek and means “to cease to exist”. Eclipses alter the fabric of time and space by bringing cosmic information into the magnetic field of the Earth. Each human being is a receptor that attracts this huge download of information into their psyche. How each individual processes what they receive determines how they will apply the new concepts to their life. Eclipses cause a reconfiguration and rebooting of consciousness. Over the last few years the eclipses have been facilitating greater and more intense shifts into a deeper connection with the whole of the cosmos. This is bringing a new revelation of self-awareness to the totality of humankind. This is a partial eclipse and primarily affects the southern part of the world. All eclipses are a part of a larger pattern, the Saros cycle, a family of 69-87 eclipses spanning 1,226 to 1,550 years; the last solar eclipse to occur in the same Saros cycle (125) was on September 1, 1997 at 9 degrees 39 minutes Virgo.

A solar eclipse in Virgo draws us to experience the higher octave of the sign; to evolve from criticism to discernment, from distraction to focus, from scattered forces to integration. In its highest vibration Virgo trains us to become whole, to realize that the body is the temple of the soul and humility, self-improvement and service are gateways to the divine connection within. Chiron at 19 degrees Pisces closely opposes the Sun and Moon, exposing falsehoods and fears that prevent us from expressing greater creativity and honoring ourselves both in personal consideration and recognition of our own uniqueness. Chiron in Pisces helps us to find our heart/soul connection, calm the chaotic mind and clearly define the presence of our higher self. Jupiter's opposition with Neptune in Pisces, exact on September 16 at 8 degrees Virgo-Pisces increases our desire for more clarity about our spiritual self, the “mysteries” of life and how to move beyond practicing meta-physicians to living Magicians (Masters).

Other aspects that are broadening our view of ourselves and the world are Uranus which will quincunx both Sun and Moon at the eclipse causing us to overthrow conventions that no longer serve us and

access our inventive, creative mind in a more expanded way. On September 17, Mercury begins its final retrograde of 2015 at 16 degrees Libra. It will turn direct on October 9 at 1 degree Libra, crossing 16 degrees of Libra again on October 24. Mercury retrograde can confuse communications and delay travel and lodging plans. If there are contracts to be concluded or signed it is best to get them completed before the retrograde begins. A common effect of Mercury retrograde is having to do everything of importance more than once. It is a time when taking your time is very helpful. Mercury's retrograde will cause it to remain in Libra three times longer than usual, from August 27 to November 1. It encourages us to be more honest in our communication and renegotiation of roles in relationships. Mercury forms three squares to Pluto (all at 13 degrees Libra-Capricorn) on September 9, September 24, and October 22; it remains within 7 degrees of squaring Pluto throughout the whole month of September, putting intense emphasis on finding out what the real issues are and dealing with them. How you end things is just as important and how you begin them. The more truthful and loving we are with ourselves the easier it is to be honest and caring with others. It also lightens the load of old baggage that we have been carrying. On September 17, Saturn will reenter Sagittarius bringing our focus to the great importance of living and telling the truth.

It is time to take a leap of faith. Who you are and what you are becoming is vital to the future of the world. You are capable of so much more than you have believed. Aim high! Live in integrity. The rewards are beyond your imagining.

FULL MOON-September 27-28 (Lunar Eclipse)

The energy of this Full Moon continues the extra potent influence of the New Moon as this is a Lunar eclipse. As St. Germain says there is much old material being brought up from the bottom of the pond to be dealt with. This is the fourth of four Lunar eclipses in a row, a relatively rare occurrence called a tetrad. This is also the second SuperMoon in a row and the closest SuperMoon to the earth this year. SuperMoons occur because the lunar orbit is elliptical. Eclipses close to a solstice or equinox and even more potent, because there is a huge reduction of the earth's magnetic field, which allows the downloads of new codes into the collective consciousness.

The duration of an eclipse has an effect on the consciousness of the collective which lasts one year for each hour of the eclipse. This eclipse lasts three hours and 21 minutes. It will be most visible across the eastern half of the United States, South America and western portions of Europe and Africa.

The primary focus of this eclipse is on relationships, since it highlights Aries and Libra and archetypes of Juno and Vesta. The asteroid Juno represents the quest for true relationship. Juno's mythic clashes with her husband Jupiter symbolize the struggle of the feminine for equality. The Sun closely cojoins Juno in Libra, stressing where we must move from polarization to integration. The North Lunar Node in Libra indicates that this is an evolutionary portal for all of us, both personally and collectively. There must be an inner as well as outer balance in the masculine and feminine to achieve harmony in our lives and lasting peace in the world.

All relationships are based on our relationship with our self. Vesta, cojoins the Moon in Aries, emphasizing the necessity for inner balance and wholeness, lest we fall into codependent entanglements rather functioning relationships. Vesta represents focus, dedication and clarity of purpose; her sacred flame purifies and transmutes EGO into self-unity. Vesta's involvement with this Full Moon shows us that we are ready for new paradigms of relationship based on mutual empowerment. True partnership is synergistic (the relationship becomes the focus of both partners). The desire is to expand the union rather than divide it into parts for control. You may be made aware of new insights and find the necessity for reality checks as the Sun squares Pluto on October 6 (13 degrees Libra-Capricorn) and opposes Uranus on October 11 (18 degrees Aries-Libra).

The heavens are calling for us to find the essence of spiritual partnership; to allow our Love to support us as we journey together. We can laugh and find joy in each other. We are good friends with our partner. We celebrate the journey of life, two unique individuals who respect each other so much that we feel the synergy of oneness.

QUOTES FOR THE MONTH from St. Germain

Step up to the window that looks out on your life and see what you have been creating. Move into the workshop of your imagination within and consider what you would like to see out that window. Recreate the sadness and clouds to be a glorious panorama of the most delicious beauty to feed your soul. You design what you see when you look at your life.

The Magik is gathering thicker and thicker as the Illusion passes. Feel the embrace of the Love that it brings. You are the Magikian. Your magik is the design for the New World. You are creating it today. Where do you desire the world to go? Make these changes within yourself.

The chaos and fear are shreds of the Illusion that have not yet blown away. You can believe that they are all that is or you can look within and find the dawning of each new day filled with unlimited potential. It is a Master's choice what you will live each day.

Time was a measure in the Illusion and money is a symbol of the currency flow of God. If you are fighting to get either one you are preventing the flow from coming to you. When you forgive the fight in each and every place in your life, the truth of what awaits you emerges. There is plenty of everything and plenty more where that came from.

A point of consideration; by moving the letter C one way or the other we become scared or Sacred. It is a Master's choice.

ST. GERMAIN'S MESSAGE

Dearly Beloved

Masters, let us consider where death is becoming new life—a beginning rather than an end. The intellectual perspective of death has been vague because the finite mind has had no true concept of what might be happening beyond the veil. There have been guesses and occasionally someone would receive an intuitive vision, but often the interpretation of the vision was colored by the beliefs, limitations and/or doubts of the receiver. Due to these considerations and in more recent times the “life after life” experiences that some people have remembered, death has been presented as HELL or Heaven depending again on the receiver.

The Illusion has done its best to separate life on the planet from any clear connection to the Afterlife. Fear of death, dying and the dead is being blown out of proportion by the media; zombies, the “living” dead, the “walking” dead are just a few of the nightmares inspired by the need for sensation.

Throughout the duration of the Illusion the Afterlife has been holding wonderful information about the changes that could occur when the Game of Separation ended. Now we can begin to share the amazing opportunities for the Afterlife and physical world to blend. This is an untold story, because if it had been shared humanity would have, perhaps, made different choices that would have taken the Illusion to a different conclusion.

The GAME is over and humanity has been thrown into the confusion of *everything being possible*, when the Illusion was focused on limitation in all things except perhaps war and death. The AWAKENING is about remembering all that you truly are. The fear of the Illusion is bringing up the belief that if people are different they need to be removed; there are individuals and religions that feel that it is their sacred duty to remove those that are beginning to remember beyond the limits of the finite mind or those who see life differently. The Plutonian energies are stirring the

last vestiges of the death complex to the surface so that the use of death as a threat can be healed.

Since death has always been a gateway to the Afterlife many people want to die to get to the wisdom and enlightenment of the Ages. We will keep telling you that there is no necessity for dying to blend with the Afterlife. We are now coming to bring the wisdom to you right where you are. It is not something that can be learned in a school without the understanding that the grounding of the wisdom within is necessary for the comprehension of what the higher frequencies are about. These ancient truths are not intellectual in their nature. They do not have to be discussed, analyzed or debated, but they do require to be felt.

Infinite possibilities are being unveiled and the place of discovery to find them is within yourself. There have always been changes that the World called endings. The focus on endings has made a web of sadness and fear around death, when once it was a celebration of the accomplishments of the life. Death was once a time of quiet communion with loved ones and the raising of the body's vibrations so that it moved beyond the physical realms. There was no loss because the Love connection remained and continued to be felt by those who remained in physical form. Now that the Illusion is finished death will change its form just as everything else is.

Remembering the feelings of the connection to the Ancient being that you were in the beginning helps to reestablish the Truth and Reality of who you are and have been always. For so long the mind has defined goodness in intellectual terms as good works and doing the "right thing", but "right" has been carefully controlled to fit into the rigid standards of limitation that the Illusion held as *all there is*. More and more people are feeling the changes that are happening within each and every person on earth. Some just know everything feels different. Others are frightened by the differences because the EGO has held the beliefs that *different* is something to fear. In the beauty of uniqueness races have chosen different looks, cultural standards, languages in the belief that these differences would protect them from other groups. The feeling that other people were not safe expanded over time as the fear of *not enough* grew. The idea that this is a very limited planet with minimal resources has been exploited by those who want to control the resource and say who "deserves" to have or have not. I say this, not to incite more fear, but to clarify that there is and always will be plenty as the connection with the Afterlife expands. The third and four dimensions have been where physical life operated until, only recently,

humanity began to accelerate into new frequencies. In the third and fourth dimensions death was considered necessary because of all of the limits that the Illusion held as true for lifetimes. Life has cycles in nature and people were encouraged to believe that the human was completely subject to those laws. Now the Revelation that you have always been divine beings is the "Breakthrough Technology" of these times. As you remember how to care for your physical form and transform your total being into compatibility with the higher realms, death ceases to be required. There have always been a few souls who remembered the Ancient Ways and lived by those standards. Now those Truths are available to all. The finite mind wants to know where you can by these understandings. The Truth is an essence, an energy that can only be obtained by forgiving the thoughts and emotions that have controlled life on the planet for so long. *Faith in the higher self, trust that comes from personal integrity, courage that isn't based on how many of the enemy one can kill, but on remembering, from the Lord God of your being who you really are, are necessary tools for living as the Masters that you all are.*

The mind can give you the words from Ancient text or current philosophy, but it is up to each one of you to find within yourselves the clarion call that those words inspire to live better, kinder, sweeter, stronger than you have known to live in eons of time. Gentleness is not a weakness and killing is not a strength. Love is vulnerability that brings an awareness of strength that flows to you from the fountain of divine essence within. That strength supports you to find that death is no longer something to seek, but to release. We do not tell these things as an order—follow this, but as a gift that you may choose to accept or reject as the masters that you are. We simply ask that you put the ideas into effect in your lives and see if the new energies do not improve the standards of your whole being. There is no war in this. The more that you apply these Ancient concepts the easier and safer your lives will become. The energy is guided by the directive of your sacred self, rather than by the fear-driven judgments of the EGOIC mind. The EGO knows battle strategy and how to make war, but it becomes restless and uncomfortable in peaceful situations. It is time for Masters choices. War is beginning to show itself for what it is—an unnecessary waste of energy (money, time, human resources and human life). We know that you must fight, kill and die until you are so exhausted that you will forgive the old ways. We are holding intensions of love that you can turn your personal will to the creation of the New Earths becoming, rather than to funding the conflicts

that most people truly do not want to experience. The EGO has led people to believe that the negative potentials will fall on the enemies head. Remember the phrase, “Lo, we have met the enemy and it is us”. Divine law is clear that all things are one. You can no longer separate yourselves from others without feeling the depth of their experiences within you. That is the last vestiges of death. Let it go!!

When you watch the news, do you not feel for the things that are happening? Some say, “I no longer watch the news”, but someone will surely tell you what is happening and you simply cannot escape feeling what is affecting the collective consciousness. Death is put before the world as something that MUST happen. Death is so overwhelming that you turn away. As it becomes more unbearable it is also accepted as an unrelenting part of living. As you can let go of its constant presence in the psyche, death can and will be integrated into the energy of the Allness once more, no longer to be considered a necessity but as another fragment of the old ways passing. Life without death emerges from the remembering as a gentle, delightful ongoing that changes its form, but never ends.

Humans are recognizing that these are strange and complicated times as the old order passes and the new understandings are moving into place in the psyche of each being. You have the choice. It is up to you. Live by the punishment and sacrifice of the old ways that are passing or feel your growing connection in love with the new becoming within. We are with you every step of the way, no matter how you choose.

Until we meet again in whatever manner that may be, I remain your most humble servant. I AM the Lord St. Germain
