August Newsletter

NOTICE: Many people have been calling and/or commenting on feeling strange—tired, dizzy, pressure, as in heaviness in the body or as though they are carrying a burden of some sort.

St. Germain says, that beginning with the New Moon on the 22nd of July at 0 degrees 44 minutes Leo, followed the next day with Sirius Rising, which is considered by many to be the most powerful day of the year, the Earth will be experiencing the evolutionary shifts of moving fully into the Age of Aquarius. The cusp between the Age of Pisces and the Age of Aquarius began in the early 1930's. The sixty days between July 22-23 and September 23rd when Sirius sets mark an influx of energy that brings deep internal changes of heart to empower a flow of compassion and heart-felt Love that the Earth has not known since Ancient times. The physical pain that many are experiencing is simply an indication of the EGO's resistance to these changes that are Cosmic and Universal. The energies do not go against Free Will, but seek to reestablish humanities ability to overcome the psychological repression that has held many of the Earth's inhabitants in a fear that keeps them from owning who they are, totally, and living a life that they were created to live.

This evolutionary process comes after only seventeen years in the energy of the new millennium. As humanity moved into the 21st century the old order began to break apart in order to make room for the essence of Revelation to change how civilization functions from the inside out.

These changes are a part of the necessary shifts that can bring new levels of awareness and understanding to all of the Earth's people and raise the frequency on Earth so that hearts and minds are drawn to unity, harmony and interdependence, rather than the division that has formed in recent times, created by the EGO mind.

When the sixty days is passed that is only the beginning of the changes that will continue to be experienced on Earth.

See the astrological report for more information.

This a drawing of the Sirius Star that Dorian created for the Siris rising ritual on July 23rd. The New Moon at 0 degrees 44 minutes Leo was the day before, setting the tone for the massive power shifts occurring between July 23rd and September 23rd when Siris sets right after the autumnal equinox. See the astrological column to learn more about the shifts and changes we are meeting now. If you are interested in a copy of this drawing contact Dorian at dorianzumwalt@gmail.com.

Fremont county is gearing up for the total Solar Eclipse that will occur on August 21st at 11:40AM. Fremont county is considered the best place in the world to see the eclipse and Crowheart, WY which is on the Wind River Reservation will have 100% view of the eclipse. One reason that the eclipse can be seen so clearly is that we are not near any large city and have very little pollution.

St. Germain is continuing the “Personal Growth” package in 2017. This has proven to be one of the most popular offerings that St. Germain has given. People are excited about the changes in their lives and express joyful anticipation for the future. Changes on all levels are bringing a whole new lease on life as we evolve into New Humans.

Rainbow Center News

Fall Intensive Our fall intensive will be November 10, 11-12. The title is “The Elements and Elementals of Magik”. The elements effect everything in life. Each person has a primary element that is the element most easily accessed in many situations. It also shows in the personality and the nature. All elements are accessible, but the primary element is a personal dynamic. The elementals—gnomes (earth), sylphs (air), undines (water) and salamanders (fire), as well as, Aether (spirit) are a natural part of life and even though most of the time humans have little or no awareness of them they still play a very important part of life in general and how the natural aspects of life function. St. Germain will talk about our elements, how to work with elementals, how to interact with aspects of nature and how to become much more attuned to how they feel, look and respond positively. We have been so long deliberately out of sync with nature, but as revelation brings us into harmony with the truly important factors of Life once more, the magik, which is the true living of Life, is reinstated, no matter what the beliefs of more recent times have mandated. Magik is only to be feared if there is the breaking of the Divine Laws that set it in motion in the beginning. The intensive will be from 10-2 on the 10th, 10 am to 6 pm on the 11th and 10 am to 4 pm on the 12th. The cost for this three-day intensive is \$350. We invite you to join us here in Lander for enlightenment, excitement and expansion, with the Master St. Germain.

The CDs and mp3s of our Spring Intensive—“Witches, Magicians and Wand Carriers” are available for \$150 per set. There are 15 CDs and 15 mp3s in each set of our four-day workshop on Ritual Magik.

We invite you to join us in person. Call or email Molly for more information.

CDs and mp3s will be available.

[Click here for the Spring Workshop](#)

Our group for August is “Unity and Oneness are not Myths”. In the division that has occurred on the planet separation seems stronger than ever. Revelation is creating the essence and renewal to show the way of unification and oneness. This understanding will first be discovered within self and then it will shine out into the world like a beacon. Many people look at the wars and doubt that UNITY is anything but a beautiful myth. St. Germain keeps reminding us that “nothing is as it appears”. The group will be on August 13th at 2 PM.

CD’s can be purchased on the website at [Click Here for 2017 Groups](#)

Pegasus at sunset. This is Pegorus, our flying horse who brings the element of air to life for us.

Our teaching for August is “**The Elements: Air**”.

St. Germain is bringing information on the elements leading up to our November Intensive—The Elements and Elementals of Magik. Air is associated with the mind and the breath of Spirit. When we use the element Air in our magik we call in laws of communication and sending of messages. The flow of Air brings so much good into our lives. The August Teaching is on the 9th, at 7 P.M.

The Teaching is on the second Wednesday evening of each month at 7 pm MT.

Our call-ins for the Teachings allows you to join in to hear the teaching and ask questions at the Q&A.

If you haven't had the experience of the Teachings that St. Germain is offering this year they really help us to understand what is going on. It just might be worth your while to check them out. The deep healing power of the Master is there to experience again and again as you listen to the awesome wisdom that he brings. CDs are \$15 for each set—Teachings or Q&A. It is \$25 to call in one time or \$40 for both sessions each month. Postage and handling are separate.

To order CD's or DVD's

This is mom of our family of racoons that live on the land. There is are six babies. The babies come and climb on the trellis on our entryway. There will be six little noses poking through the lattés and all manner of little chirpy, clicking noises. They are very communicative.

ASTROLOGY

AQUARIUS FULL MOON—August 7

A lunar eclipse is an extra potent Full Moon that bring new opportunities to shift reality. Aquarius is the last of the air signs and represents the group mind or collective consciousness through which we contribute to the whole. This amplification of the air element can offer expanded awareness of how we are using our mental energy while clearing old beliefs and thought patterns that diminish the flow of enlightenment to us. While Mars was joined with the Full Moon in Cancer as the Sun shifted into Leo so has Mars, so the Mars conjunct the New Moon in Leo in July continues to empower our creativity and the North Node in Leo assists in our active participation in the collective dream of life.

Pallas Athene in Taurus - the warrior goddess in service to the Earth - plays a vital role in this eclipse, squaring the Sun, Moon and Mars. Pallas is a point of a powerful earth trine with Mercury and Vesta in Virgo and Pluto in Capricorn. The eclipse calls the collective mind to reconsider just how important nature is in life on the planet and directs attention to finding solution to the ecological crisis on the earth. Pallas is the goddess of wisdom and in Taurus it points out the necessity to be careful and considerate of our bodies and the body of the Mother Earth that we inhabit.

The Leo-Aquarius axis highlights the relationship between the individual and the collective, and how your unique contributions assist the evolution of humanity. The Aquarius Moon trine Jupiter in Libra, magnifies the essence of air and brings our attention to the changes in the time/space continuum—there is a lot more space than we have been led to believe and we create the space of comfort with our own concepts of how much we have of anything. The Leo North Node draws our attention to the vitality of the life that we live. The more we enjoy life the more we have to share and the greater our personal gift of individuality. We have been programed to live in the box of “people pleasing” which narrows our vision and diminishes our enthusiasm. If we look out into the world for our measure of value we will find a kaleidoscope of mirrors that can lead to confusion. When we feel into our own vast treasure trove of worth and integrity we can live up to who we truly are.

At a lunar eclipse events from our past meet completion. In the case of the Aquarian Moon the completions are highlighted in the areas of friendship, group and community involvement, focus on individuality and the gifts that we have to share with the whole. People who can alter the direction of our

lives may cross our path at times like this. The Moon cojoins the South Node so the emphasis is more on completion than ongoing. There will be clear cut and well-defined awareness that the social activities in which we have become involved no longer support our passion or where our heart would lead us and we may even find that rather than feeding our spirit they are draining our reservoir of vitality.

The shadow side of Aquarius can freeze us into separation rather than encouraging involvement in what we Love. We can become so detached that we disconnect from our heart; an over-attachment to having the “perfect plan” can hobble our forward movement. Idealization of vision can deny the ability to take risks. We can discover that our fear of rejection for being who we are causes alienation from the people and things that bring us the most joy. We are at a point of breakthrough that allows us to see beyond the old perceptions that have limited our potential and kept us hiding our “light under a bushel” so to speak. “What will they say if I fail?” “What will they say if I succeed?” Everything gets stalled in a fear to make choices.

Both Saturn and Uranus, the co-rulers of Aquarius, are retrograde, along with Chiron, Neptune, Pluto and Eris, plus Mercury is preparing to turn retrograde on the 13th of August. The predominance of retrograde planets turns attention to the past. People and/or events from the past may resurface at this time in order to bring closure or redirection. This is a time for deep inner contemplation and, here again, the potential for bringing old grudges, burdens and misunderstandings to an end. Saturn retrograde in Sagittarius suggests that we use this period to rewrite, redirect and reconfigure our lives in order to get moving and keep moving in new and appropriate directions.

The eclipse reveals a theme of shining light into the dark corners in order to cast out shadows of doubt and fear. The light illumines areas where we have outgrown the ideas and beliefs that we have stood by and it is time to expand our perspectives to embrace new life. The third and final square between Jupiter and Pluto (exact on August 4) can increase drive and ambition, inspiring us to “live large and accept *more* as a natural part of our future”. The balance between relationships and work comes under the microscope and in the transformation and growth we are making we may find that it is yet time to peel away another layer of our old self.

LEO NEW MOON—August 21*

This total solar eclipse is a global event with the path of the full eclipse running from Birmingham to Seattle. It is the second solar eclipse in Leo this year, amplifying the power of all that this eclipse brings even more. One of the points of most direct viewing is over Crowheart, WY where the eclipse will be 100%.

Every second, our earth is being bombarded with millions of megawatts of electromagnetic energy from the Sun. During a solar eclipse, that stream of infrared, visible, and ultraviolet light is blocked by our Moon, which is 400 times smaller than the Sun but, amazingly, also 400 times closer. This momentary suspension of electromagnetic energy, affects the Earth’s magnetic field, as well as our pineal gland and DNA, causing a reboot and reconfiguration of consciousness.

Leo is the archetypal lion, indicative of bravery, strength, power and courage. The archetypal quest of the hero/heroine is to discover and express our true identity. This journey to self has distinct stages; The *Lord of the Rings*, *Star Wars* and *Harry Potter* series are modern day expressions of this quest. *Percival* is one of the oldest and best-known tales of the quest of the hero. The Earth is under pressure from dire circumstances, that force us to leave the familiar and venture into the unknown. As the magik returns humanity is finding the mentors who support the journey and the villains who put obstacles in the way. We are forced to face our worst fears and, in doing so, we are transformed and empowered. We experience life and death, and receive symbols of our coming-up-over the limits of Illusion. ***Life is the greatest teacher, yet when we are faced with the aspects of our quest in every day affairs we tend to believe that we are being punished or denied rather than tested to reveal our worth.***

Several factors potentize this solar eclipse. The North Node in Leo designates our spiritual frontier—in this case, the embodiment of heart-centered consciousness. This reveals the necessity to forgive logical, left-brained thinking and align with heart/soul centered awareness that changes the perspective of what life’s experiences are really bringing us. This shift allows us to experience life as a reality of Love, rather than an Illusion of fear. We have been programed to value logic over feeling, conformity over creativity. It is probably no coincidence that heart disease is the leading cause of premature death worldwide. Logic

and practicality lead to conceptual living rather intimate involvement in one's own life and affairs. We have been taught to focus outward, especially on the lives of others, rather than on ourselves. We have been taught to doubt our own understanding of our body, emotions and spiritual alignment with goodness and Love. The South Node in Leo indicates the necessity to transmute the shadow side of Aquarius, which can hold lofty thoughts but be unaware that "we must be the change we wish to see" (Gandhi). Mars is also in Leo and conjunct this eclipse, amplifying the cosmic directive to act from, for and with Love. Mars in Leo activates our passion, pride and willingness to take a risk, while Saturn's close trine with Mars counsels us to be conscious of rash behavior and selfish motives. The interdependence of our masterful selves allows us to appreciate just how affective integrity, respect and love can be.

Uranus brings a sense of necessity for change and the ability to step out of the shadow of old models, into the brilliant light of new and exciting ways of expressing our gifts. Uranus in Aries, Saturn in Sagittarius and the Sun, Moon, North Node and Mars in Leo form a dynamic grand trine in fire. This inspires inventive genius to blossom and new horizons to be explored. Uranus is part of a wide grand square with Venus and Ceres in Cancer, Jupiter in Libra and Pluto in Capricorn, challenging us to keep moving forward while expressing compassion, empathy and consideration. Uranus makes the first of five semi-squares to Neptune (August 11, 2017 to May 1, 2019) initiating their Crescent phase, which reveals the consequences of what has resulted since their prior conjunction in 1993. Quantum leaps in technology—especially the explosion of the influences of Internet, smart phones and social media. These have radically changed how we communicate, work and live. It is being revealed that, rather than to bringing people closer together, social media is creating lonely, ill adjusted and often sick people, because the necessity for human contact both physically and mentally is being denied. There is a requirement for the electrical impulses of brain waves and intimate energetic contact with others to support life. When infants in an orphanage are deprived of human contact they can develop a failure to thrive and often die. Obviously, older children and adults can suffer the same challenges when they are cut off from direct human responses. Electronics are quick, but they do not truly convey Love. Instead, addictions are formed to the ding of emails and text messages coming in, that distract those caught in this web, so that they cannot be productive, involved humans. Those in this trap are led into it so easily that they do not even realize that

they are addicted, until someone suggests that they leave their cellphone behind.

This is the second Leo New Moon this year. The first was July 23 at 0 degrees 44 minutes Leo. This emphasizes the necessity to integrate this sign's spiritual qualities. Two lunations in the same sign have more impact than two New Moons or two Full Moons in the same month.

Love is perhaps the most misunderstood word in the English language. We have come to use love in place of like to suggest intensity of emotion. The spiritual quality of Love has been lost in the distance created by using a word that implies great value, to things or people that are mildly attractive. We no longer perceive Love as the very fabric of our existence, the Source from which we were created, that which holds all of creation together. Love in this sense is not a verb, but a state of consciousness, life defined as unified and sacred. In Love there is no duality, such as has defined separation and been the perpetrator of division through judgment and alienation from the spiritual wisdom within.

The opening of heart-centered consciousness is no longer just a lovely ideal, but a necessity for the survival of the Earth and her children. The greed and inhumanity that has come to be taken for granted is creating monumental

QUOTES FOR THE MONTH from St. Germain

The Rite of Passage to Self is the power of home coming. It is time for all to make the journey to Self! The Rite of Passage helps each being to move through the old limits that have held humanity away from the recognition of true Self within. The home coming helps the remembering of the connection to God/Goddess all that is. This is a choice for Love. – St. Germain

Living an elegant and gracious life means living here and now. As you are present in the moment conscious enlightenment and conscious Love fulfill all of your creations. -- St. Germain

As the heart opens, things that have been hidden are revealed. The Revelations of your most intimate and private feelings come to consciousness and you can delight in the blessings of knowing yourself. – St. Germain

She knows your name. She knows all of your names. She listens to every inhale of breath, waiting for the exhale that follows. -- Lazaris

ST. GERMAIN'S MESSAGE

Dearly Beloved Masters, when you feel anger to the point of hatred, what is the driving fear that makes such reaction necessary? Anger is just a thin veneer for fear and humanity is being offered so many reasons to fear, but when you look deep into the depths of your true self, what is driving the anger to rage?

Right now, on the planet the energies are moving more and more toward the imperative of unity and oneness. The EGO *does not like to be told what to do!* It will rebel against change and then swear that change was it's idea. There is so much confusion as the paradigms of the old order are being dismantled and the new paradigms are moving into place. The Aquarian Age is about Love that is unconditional and a deep sense of Oneness that touches the heart and soul to bring to bring Unity. The beliefs of separation have focused on the isolation of self-limitation. If there is the need to do things all by oneself, then the loneliness is becoming more conscious rather than just "background noise". Revelation is opening channels for the love to flow consistently and powerfully now. Letting Love in appears to be one of the most difficult shifts on the planet now. Since humanity has lived for

so long, isolated, the idea of opening up to other people seems to be a terrifying vulnerability. For so long the panic around "mind-reading" has made people most uncomfortable. NO ONE READS YOUR MIND!! Each person broadcasts their thoughts through the solar plexus and anyone who is willing to be still mentally can usually pick up on what is going on in their environment. The shifts in the energy on the planet are bringing humans closer together through psychic connection in the collective consciousness. The interdependence of divine connection is being revealed more consciously all of the time, where the illusion perpetuated the belief that each person is a unit unto themselves with secrets and plans that others are not to know because, "what would they say if they knew.....?" When there is the remembrance in Love that All are one, the mutual respect and consideration of the value of each person's Mastery causes each one to recognize the worth of the individual rather than fighting to prove value that already exists.

Separation has created the insidious devaluation of the individual while making being individual something worth having. The confusion fuels much of the conflict on Earth now. People shout about being "good People" without investing the time in stillness to truly access the goodness that exists within themselves. We tell you that you are far greater than you are willing to accept and yet there are so many destructive acts perpetrated against goodness because old belief systems define goodness in such limited parameters. Goodness is not just acts, but essence. Being poor does not imply goodness any more than the fact that someone is rich makes them negative. It is all about personal choice as to how the Divine creative flow is directed. Fear blocks the flow of goodness no matter what race, religion, stratum of society or self-proclamation there is. Fear turns "right" into madness because of the building of frustration to be heard, to be recognized and to be Loved for self. Love and respect must be earned because there is an innate desire to live up to one's own personal Mastery. These times on the planet are not about judgment, but about healing and the healing does not start outside of self, but within. Only within self is that connection to the God-self discovered. Outside there is the sibling rivalry of loneliness, abandonment and ruthless need to be better than others "at all costs".

The EGO sees no harm in killing the enemy, because the Illusion has given the false perspective that if someone isn't just like me they probably are dangerous. The question then arises, "How dangerous

are you to self and others”? The EGO does not want to answer because that would mean that you would be required to take an inventory of your own thoughts, beliefs and theories, not to judge so much as to clarify, “How are you creating your world”? Feel it! Do not spend a lot of time thinking about the answers, because the EGO has a stockpile of pat answers that sound good to those who are not paying attention.

The Healing is something that only the individual can bring about for self, not because of the necessity to do it alone, but because, until you are personally willing to surrender the old ways there is no place for healing within. The old idea that someone else is supposed to heal you is a logic that has created abandonment of self where health is concerned. The expectation that the doctor or health care practitioner must “make you well” is a fallacy of the Illusion. The patient (one who waits quietly) is required to participate in the healing process or the “cure” doesn’t generally last. When the one to be healed and the one who will assist with the healing are in harmony, sharing ideas and acceptance that the process is for the highest good of all, the healing not only helps the one who is asking for help, but can flow positive energy out to everyone involved.

Being aware and willing to be a part of the global community and world healing, actually begins with self. If there is no willingness to be well within or if there is an erroneous belief that there is no necessity for self-healing then the whole process becomes skewed by misinformation. **EVERYONE ON THE EARTH REQUIRES DEEP CLEANSING FROM THE DEBEE OF THE ILLUSION; THE WOUNDS OF SEPARATION ARE EXTREMELY PAINFUL AND THE DESIRE TO BLAME OTHERS DELAYS THE PROCESS OF FORGIVENESS REQUIRED FOR COMING UP OVER THE OLD LIMITS.**

The blindness of righteousness often prevents the release that is necessary to find enlightenment within self. The mind is still acting like a general who issues orders for battle without considering whether a fight is truly valid. Most of the world is acting like children thrashing away at “the big enemy”, while accomplishing nothing but exhaustion. Spirit waits quietly until each one is willing to **BE STILL AND LISTEN**, rather than continue a war that has no reason.

The irrational mind and the over reacting emotions are causing people to wound one another without realizing that there are no enemies. Friends, family, community, countries all have a divine right to

experience their own ideas, thoughts and beliefs, but hating someone for being different is dying with the Illusion that perpetuated that concept. Everyone is different. If you hate the differences then there is no one to Love, especially self. If you only want to be with those who are “just like you”, you may continue to stand alone. How sad!

MASTERS DO NOT MAKE EXCUSES, DEFENSE OR EXPLANATIONS! So, when there is the necessity to defend what others are doing the energy becomes a denial of that other person’s Mastery. When there is a perceived necessity to defend someone else, there is also something within that brings shame, doubt or resistance that must be hidden or excused. To hate Love as a weakness or defend cruelty as a necessity requires some deep soul searching as to why there is fear of the strongest creative force anywhere—Love without condition. To be suspicious of those who do not hate, requires internal investigation, rather than looking away and denying the emotions that divide. **FEAR IS AN ILLUSION.** A wise man said, “The only thing to fear is fear itself”. When you go to meet the thing that you fear, either there is nothing there at all or the person or thing you find is simply something or someone that you know; a mirror that is too revealing of why you fear to the point of destruction.

People around the world engage in hating the President of the United States or hating those who hate the President. People in all parts of the world hate the United States or Russia or North Korea or China or anyone, who in the moment appears to be a threat. While the greatest threat is the “two-headed Dragon, EGO” that keeps adding fuel to the fires of dissension from the inside of each Master in the becoming. The same EGO Dragon keeps saying that “If they were truly Masters they wouldn’t act that way”. You are all Masters and you have spent life times of forgetfulness that are now being cleansed and cleared. The cleansing doesn’t come from destroying God’s creation!! The clearing and purification start in the Sacred Space in the area of the solar plexus. Your greatest progress happens when you stop looking outside for solutions and begin to allow yourself to connect to the Divine inside. All are God created no matter what the name that is place on that oneness. The Oneness embraces the whole, so there are no arguments about who is better or worse or who should have control over the Earth and tell everyone else how to live, The Parental Order is dying with the Illusion, which means that no human being knows better than others how this Holy Place must function.

We watch the wars, the fights over domination, the intimidation of innocents, the determination to eliminate those who are wrong, the stubborn determination to keep things the way that they have been for life times and what we see from our perspective is the spreading of Peace, Love and expanding unity. The wars are simply the EGOs last efforts to maintain paradigms that are failing. The EGO fears that there is not enough and is trying to take from others to build empires that no longer serve anyone. There are vast attempts to manipulate the assets on the planet. What those who are still looking back do not understand is that if you take something that isn't yours, not only is there the possibility that that will be removed, but that the balance will bring the three-fold law of karma. This is true for those who have enough, but fear they don't and it is true for those who doubt that there will ever be enough no matter how much or how little they possess. Being rich is a divine law—the law of plenty! The EGO has created hatred of those who have and the Illusion that some are just destined to go without. Divine Law is “All are created equal is the use of energy of Divine essence”. There is plenty for everyone and plenty more where that came from. What you desire is with you right now, but when the focus of your energy is on what you see outside of your life and the belief that you are lacking, lack becomes the way of life that is created by focusing on limited resources. The mind says, “I want, I want, I want” and that gives the energetic perspective that there are things missing in your life. When the focus is on allowing what you desire to come to you, suddenly you become an energy magnet that attracts the essence of good to you. Prayer is not a grocery list to God—give me, give me give me, but a stilling of the mind so that you may listen to the voice of Spirit within. When you pray do you believe that God listens or are you convinced that you are never heard? Are you patient about receiving or do you expect immediate fulfillment? Are you, honestly willing to accept what you ask for? God always gives more. Is there anger that what was asked for was changed to fit your personal requirements? Are you aware that anger, resentment and fear hold the desired outcome at a distance? A vast majority of the world has a wealth of good right at their fingertips, but the rage of denial is preventing the good from reaching them. When the focus is on the belief that others ALWAYS GET WHAT THEY WANT, it becomes a distraction from the recognition that what is personally desired is also with you. The Illusion has held the focus of creation on what others have, get, accomplish rather than on the amazing good that flows into each life only to be discounted, like a child throwing a tantrum who knocks the desired ice cream

cone out of the hand that offers it because it didn't come fast enough or it is the wrong flavor. Gratitude has been thrown into a corner, rejected as unnecessary, because “Why should I be thankful for what I don't have”? The Laws of Nature operate on gratitude first and then Faith brings the outcome. The logical mind wants the proof that there is something to be grateful for and then the EGO makes a negative assessment, that there is nothing to be thankful for so why bother. That is why the Lord's Prayer gives thanks for things to come rather than what has already been received and often forgotten. God had no intention that the children of earth would suffer so. Free will has allowed the game of separation to be played without a great deal of intervention. Choice is often made unconsciously in anger, indifference or discount, but the outcome is still the same because of Divine Law.

The Laws of creation are profound, yet simple. Defiance of the Law doesn't make it work any better. The rebel has appeared to “get away with things” for life times of Illusion, but the game is over and those imbalances are being restored. No matter how much rebellion, acting out, displays of temper, emotional reactivation, the Laws are being restored and out of that balance comes unity, harmony and the living in Love that is the foundation of Mastery.

ALL ARE MASTERS, no matter how things appear. To say one is a Master does not mean that the life reflects the wisdom. When the life is lived Masterfully there is no necessity to point out the fact. A Masterful life may be very subtle, but it is recognizably desirable. Envy cannot imitate Mastery. The desire to discount those who are living well doesn't change the fact. Living well is not created from an attitude of superiority, but from the focus on the highest and best for all. It is no one's responsibility to make everyone happy, because each person must be willing to accept the good. Living life well is a Sacred Art and a Masters choice.

May each and every one, choose to live life to the fullest. Anything that denies delight is being given, entirely too much energy. In Love, we hold the most powerful intensions that all may find the life that fulfills them. I AM the Master St. Germain I bid you Adieu
