

December Newsletter

St. Germain has named 2018 the Year of Reunion with Self. This is an 11/2 year which is all about relationships, most especially the relationship of self with Self (Divine union). The New Year's Eve session with St. Germain starts at 8 pm on December 31 and the Meditation begins at 12:30 am on January 1, 2018. CDs and mp3s of the whole session will be available for \$20 plus \$5 for shipping and handling.

A most auspicious day. We rarely get rainbows in the west, but we woke up to this amazing rainbow and it lasted for well over an hour. We could see it all over the valley. We went into town and it was visible there also.

The last of the pumpkin. A mom and two babies kept coming each day and eating a little of the Halloween pumpkin, until one day they carried the last of the pumpkin away.

The Teachings for 2018 will be "living the Virtues in an Expanding World". St. Germain will show us how the Virtues (Truth, Love, Compassion, Nobility, Strength, Faith, Vision, Clarity, Loyalty, Wisdom, Honesty, Integrity) and many others bring us a brighter and more profound life. The Virtues, when lived simply are guidelines and directions for taking the divinely appropriate steps forward to connect self with Self.

St. Germain is continuing the "Personal Growth" package in 2018. This has proven to be one of the most popular offerings that St. Germain has given. People are excited about the changes in their lives and express joyful anticipation for the future. Changes on

all levels are bringing a whole new lease on life as we evolve into New Humans.

Our altar for the November Intensive—The Elements and Elementals of Magick.

For those who might wish to do a ritual, this Full Moon in Gemini, on the 3rd is very powerful. Check the astrological column for more info.

Rainbow Center News

Spring Intensive

In line with St. Germain's theme for the Teachings of 2018 "Living the Virtues in an Expanding World", the intensive is titled "Living the Virtues Brings an Elegant and Powerful Life". Defining the use of Virtue to improve our choices in every area of life. The Virtues are not based on appearances, but on the quality of life that each human chooses again and again in their lives. Choosing short cuts and taking the "easy way out" may seem like the best way in the moment, but life's challenges also brings life's growth. Without the chance to find out who we are we can muddle through life and feel as though something is missing, but never find out what it was.

St. Germain lovingly and joyfully shows by example the clear path of opportunity that is available when we are willing to feel into ourselves and discover the Love and Magick that life can bring.

We invite you to join us in person. Call or email Molly for more information. The cost of the Intensive will be \$350. CDs and mp3s will be \$150. CDs will have \$10 shipping.

CDs and mp3s will be available.

Our group for December is "Love is, Above All Things, the Greatest Healer". In these times when what we see in the world is filled with contradictions and chaos, it is to remember Love when the urge to fight is quick to rise. To remember Love when it seems as though there is no way to find Love. Look into yourself and feel deeper than you have dared to feel before. Love never left us, we just turned away. Love waits. Our group will be December 17 at 2 pm MT.

CD's can be purchased on the website at [Click Here for 2017 Groups](#)

Our Teaching for December is Blending the Magic and the Magik to become Magick. Magic is the illusion of the world, what the mind is led to believe. Magik is the Ancient mystical recognition of our true self that has been close away for life times. Humanity is being called to blend the Ancient with the present technology in order to bring about full remembering and conscious interdependence that allows our owning and honoring that which we really and truly are—Divine Creative Masters remembering all that we can be.

The Teaching is on the second Wednesday of December at 7 pm MT.

Our call-ins for the Teachings allows you to join in to hear the teaching and ask questions at the Q&A.

If you haven't had the experience of the Teachings that St. Germain is offering this year they really help us to understand what is going on. It just might be worth your while to check them out. The deep healing power of the Master is there to experience again and again as you listen to the awesome wisdom that he brings. CDs are \$15 for each set—Teachings or Q&A.

It is \$25 to call in one time or \$40 for both sessions each month. Postage and handling are separate.

To order CD's or DVD's

ASTROLOGY

GEMINI FULL MOON-December 3

What is fact really and what is illusion? This Full Moon in Gemini focuses on our perceptions, tests our discernment and brings us into deeper levels of awareness that define truth and wisdom. This is the third Super Moon in a row. The Super Moon occurs when the Moon is perigee or closest to the Earth which causes the Moon to appear much larger and increases our emotional reactions.

Neptune in Pisces closely squares this Full Moon potentially stirring up confusion and creating distractions. This raises the question, "Are we following our own truth or are we being led by the media or another person's version of what really happened?" Everything is perspective when viewed by the finite mind. Humanity is being directed more consistently and powerfully to listen within, because Spirit is not drawn away from honesty and clarity by showmanship. We keep being led to only look at "what makes sense", which prevents us from trusting our feelings. The Sagittarius Sun can invalidate feelings that do not align with certain belief systems or moral judgments. This challenging mutable T-square directs us to change how we look at things. Seeing, in these changing times, is not always, actually what is there. The mind has limited ability to register several things occurring at once. A perfect example is crowd reaction to a car wreck. Twenty different people have twenty different stories.

The energy of this Full Moon can exaggerate the filters that prevent us from seeing anything other than what we want to see. In order to stay clear and discover the truth we are required to use our intuition and trust the inner guidance we were given when we were created. Rational analysis can actually lead us deeper into confusion. Neptune speaks through our dreams, symbols and images, all of which can be seeking clearer communication than ever. The psyche is open and therefore, this is an excellent time to delve into the psychic practices, such as Tarot, I Ching and/or dream interpretation. Neptune is associated with imagination and learning to trust and understand how

our creativity is inspired by that element of our right brain is important. Often, we are taught as children, that imagination is a bad thing and to imagine is equated with lying. It is time, with all of the changes that are occurring now, to begin to connect with our inner knowing and learn our own vocabulary of wisdom within. St. Germain says that worry is the highest form of negative creation.

Mercury, ruler of Gemini, stations to go retrograde closely conjunct Saturn just hours before the Full Moon. This admonishes us to slow down and really pay attention to what is going on around us, rather than assuming that we know just because our body is there. Mercury, retrograde in Sagittarius calls us to understand the full story of our life and discover our soul's purpose. Mercury conjoining Saturn can point out where we have been out of integrity with ourselves or pretending to clear in the depths of chaos. It is time to do a reality check and make sure that we are living the life WE came to live rather than someone else's version of that life. Saturn reminds us that "WE ARE THE AUTHORS OF OUR OWN LIVES"! Mercury remains retrograde until December 22, giving us time to gift ourselves with new, clear and powerful awareness of the story we desire to live. Pay attention to the stories that you are telling about your life. We are all powerful story tellers, but we do not always realize that what we keep affirming becomes reality in our world. For example: Always talking about how lonely, poor or sick you are and telling every person that comes along the same story, so that you are not only indoctrinated with the words, but now others support you in the negative aspects that you keep reinforcing. Most people will just accept what someone else tells them as truth and not take the time to discover if the story is accurate.

As Mercury stations direct it sets off the energy of Saturn's final square to Chiron before it moves into Capricorn. This square brings up old wounds that have been keeping us stuck in the pain of what was. It is time to consider telling the tales of your life with a fresh and exciting new perspective. While moving through the last degrees of Sagittarius Mercury makes contact with the energy of the Galactic Center, thus bringing us opportunities to let go of the past and face the new year with renewed clarity and desire to live in a more positive world, created by positive desires.

The Full Moon in Gemini conjuncts the fixed star Aldebaran at 9 degrees of Gemini, the brightest star in the constellation Taurus. Located in the Eye of the Bull, Aldebaran is called the Eye of Revelation or the Star of Illumination. Aldebaran cuts through illusion

so that we can access our divine mind and open to new levels of wisdom and illumination.

SAGITTARIUS NEW MOON-December 17-18

This New Moon in Sagittarius suggests that it would be a good time to plant seeds for expansion and the empowerment of seeing life from a new perspective. In the Northern Hemisphere Sagittarius occurs in the winter when the light is the weakest. This last of the fire signs brings light to help we keep our faith strong and maintain the optimism that Jupiter, the ruling planet of Sagittarius, instills in us. The New Moon connects with the Galactic Center, exposing us to extra-potent opportunities to examine our beliefs and reconsider what we have held as unchangeable. There are new levels of creative potential and encouragement to dream big, as we find there are always greater possibilities than we might have imagined. Mercury went retrograde in Sagittarius on December 3 and makes three conjunctions to the GC during this retrograde cycle. These are opportunities to release old patterns and beliefs that have kept us holding on to the concepts of limitation. We are only as limited as we accept that we are and these aspects in the heavens are assisting us to come up over the old, hackneyed perceptions that have indoctrinated the human psyche for so long. Mercury retrograde assists us to find inner quiet and take the time to feel into our emotions before reacting too quickly. The internal connection to our Soul helps us to make wise choice by considering the outcome of our actions before we take them.

Venus in Sagittarius cojoins the New Moon and the GC, inspiring fresh new views of what the divine feminine is seeking to accomplish. The old order is not reacting well to the changes, but change is necessary for growth and growth requires the space and the climate to thrive. Venus in Sag symbolizes the wild feminine, the primal goddess that is not seeking purely sexual outlets, but the room to be true to self and to live naturally, rather than ensnared in rules that are made to be broken. Venus in Sag calls us to listen to the sound of our Soul that is pure and true to guide us, teach us and support our blending into the beings we are moving to become.

The Sun and Moon join Saturn in the last degree of Sag, just before it moves into Capricorn, the sign that it rules, for the next two and a half years. During Saturn's transit of Sag we have been brought to many points of reevaluation about our ideas, ideals, vision

and limitations. As Saturn moves into Capricorn it is time to apply what we have learned and live them, rather than dismiss them as unimportant. At this New Moon we are called to surrender the old ways and look forward instead of backward.

Chiron, the Wounded Healer, squares this New Moon stellium from Pisces. The question to be considered is how people can keep their hope, faith and optimism in the midst of so much suffering? For the past year the square between Saturn and Chiron has shown us that it is necessary to heal what we can. No one person or group of people can "change the world" without the world agreeing to change from within. Remember that we create the world we live in by where we focus our attention. When we hold the energy of hope, joy and compassion everyone can benefit. When we focus on the problems alone there is little of the essence of faith to light the darkness. This New Moon can be an intensely emotional time and the tendency to react can run high. Hardening the heart and shutting down in order to face the pain, heals no one. The healing can only come as we embrace the old wounds and move through what has been to find a whole new space of peace, light and opportunity for expansion into positive understanding. Compassion is not pity, but the strength to face suffering without taking it on. We are not here to "fix" them. We are here to heal ourselves, so that we can support those who are still seeking, to find a different way of living. Living what we desire to teach is the most powerful form of enlightenment.

Jupiter, ruler of Sag, is in Scorpio, supporting the directive of Chiron in Pisces to allow our full range of feelings. This is not permission to be violent or cruel, but the acceptance that all of humanity is experiencing powerful movement toward heart felt, Soulful recognition of who we were created to be. Sag tends to overlook harsh realities and develop "the glass is half full" philosophy. Scorpio, on the other hand, offers the view that the only way to get to the light is move all the way through the darkness. Jupiter is conjunct Vesta, the tender of the Sacred Flame, assisting us to keep our focus and dedication on transformational healing that can bring our ideals and desire to reality.

QUOTES FOR THE MONTH from St. Germain

You have lived in the fear of terrible things happening. Now it is time to forgive the fear of the wonder of your own amazing self emerging. Surrender and allow the revelation of all that you are and all that you shall become to be accepted as your wholeness is revealed. Live that Love, now. –St. Germain

Explore the depths of your inner self and find that Love, that peace, that compassion that dwells within. Feel the embrace of Spirit and rejoice that your Soul brings the remembering of your belonging to the Divine. –St. Germain

Life swirls about you. You can watch or you can join in the opportunity to find fulfillment within and without. The EGO tells you that what you see is not real. Your Soul calls you to find the Truth that has always belonged to you. The mind dwells upon shadows. The Soul brings enlightenment. It is your choice. – St. Germain

Tomorrow is waiting to become NOW. You cannot go there. You can only wait until this Now becomes the next. Call your future and wait patiently for it to unfold. The joy of living is Now. The anticipation of the next event, great or small, leads you forward. All of life is worth living. --- St. Germain

ST. GERMAIN'S MESSAGE

When God created physical form for the Soul to dwell in within the physical planes, Soul was powerful in its immortal Beingness. After a time of observing the

physical world and all of the challenges it offered to the Soul, that was not accustomed to the limits of physicality, God created an essence called EGO to help keep the Soul grounded and present in the physical world. EGO was to remind Soul that the physical realms could bring incidents that could damage to the physical form and if that occurred the journey that Soul had chosen could end abruptly. EGO's assignment was to protect the physical form in order to further Spirit's education in how to live in the newly designed physical world.

EGO enjoyed its assignment and felt very proud of its ability to protect the temple of the Soul, the body. EGO was designed to give warnings so that Soul would take the necessary precautions to protect the body, and insure that its journey in physicality could continue. As the Soul became more familiar with the physical world, it appeared that the necessity for EGO to be here was coming to an end. EGO became afraid that it would become obsolete and it began to add warnings that were not connected with staying safe in the physical world, but actually began to bring in unexpected dangers that were not physical, but mental and emotional threats. As long as Soul trusted that it was fully connected with divine creation it moved through the physical world with more and more confidence. Soul had also learned to trust EGO. In the fear of being removed from its place of power in the physical world EGO began to whisper to the human psyche about what other humans might be planning that could take away the freedom and joy that all had been experiencing in the new world.

EGO whispered of the need to fight to keep what is important and to stay safe. Where before the Soul trusted that it was safe, now the mind began to question if there really was safety. The EGO suggested that God had created this world as an experiment and then when it didn't bring the desired pleasure, God left. The EGO whispered that there was a desperate need to have more things because the world was a small world and lacking in the goods to serve all of the Souls that were here. The EGO spoke of war and keeping what belongs to oneself away from others. Slowly, the EGO began to step away from its original assignment to protect physicality, and it began to create webs of Illusion and shadows where the light had been clear. Hu-mans, created by God in peace, joy and Love, began to be suspicious of one another and doubt crept in. People who had looked into each other's eyes and found welcome and belonging, began to find fear and questions that were never there before. Slowly, over time, people quit looking at each

other. They turned their eyes down and turned their heads away.

God had never left and as God watched, people began to make choices for separation. The power of the Soul to co-create with God was now used to create bodies that adapted to the places where they lived, but there was now the emerging belief that certain people were better equipped to deal with the world than others. The EGO was becoming bloated with the power it had gained through lies and deceit and it whispered that lies were necessary for getting more power. The EGO whispered that all could not be equal because there wasn't enough power for everyone, so the EGO whispered that women, the female form and all things Goddess were weak and lessor in importance. Then the EGO whispered to certain beings that they were endowed with powers that were beyond the meager beings of this planet; that they were Gods and therefore much better prepared to decide how all on the Earth would live. They became rulers. Then the EGO whispered to others that God felt that the people of the Earth were unworthy of the rights that had been granted to them in the beginning and that they deserved to be punished because they failed God. These people began to think of punishment, of shame and guilt and unworthiness as their lot in life to administer against those who did not "fulfill God's wishes". And the EGO was gleeful as it "took over God's creation" and perverted what was once Soul directed into a mental/emotional conflict of separation.

AND GOD WATCHED. People ask, "If God cared why does God not come and stop *them* from doing what *they* are doing?" And the people waited, as things got progressively more painful. More people believed that God had left because nothing changed, which meant to them that God did not hear their prayers. When changes came the changes "always" seemed to favor others and the lies of the EGO proved to be more **REAL**.

As time had passed and the whispers of the EGO became more acceptable, the power of the Divine through the Soul was transferred to the worship of human intellect and emotional reaction. Hu-man's forgot the pure Truth of belonging in the Love of the Spirit and humans became afraid of the things that were natural and accepted before EGO began to insidiously turn the mind away from accepting how amazingly wonderful Hu-mans are.

Many avatars came to the planet, from time to time, to help prevent the end of Hu-manity. Each Teacher

came at the Divinely appropriate time to assist people to look away from the neediness for power over of mind/emotional dominance and remember the ease with which life moves when Faith and Trust in self are connected to Self or the over-Soul. When the Master Teacher Jesus came to the planet there were serious considerations as to whether the Earth and her people would be willing to make the changes within themselves in order for Hu-manity to return as a way of living. Jesus brought a message of Love to a planet that had become so involved in war, domination and self-interest that few were willing to listen. The Master Book speaks, "All are called, but few will listen and answer that call of Spirit". Everyone is called to remember the beauty, peace and Love that so gloriously blessed the planet when Soul first entered physicality. Some believe that it is a myth. Some believe it is a sweet story, but could never be true. Others, believe that a God filled with the conditions that the EGO mind has created, choses a few people and the rest simply must hope for some reward after death. Jesus knew that there would be at least two thousand years or more before humanity would begin to realize just what gifts Jesus promised to ALL.

When Jesus said, "All of the things that you have seen me do, and even greater than these things shall you do, if you have the Faith of a grain of mustard", He was not speaking of wishing or hoping that things would get better, but being willing to accept the personal contribution each being can make by accepting the gifts that Jesus promised. Jesus didn't do sleight -of -hand tricks. He lived the truth of Spirit before all and the intellectual, finite mind always attempted to explain away the wonders that Jesus lived. The finite mind expresses the doubt that anything mystical or magickal is real. Consequently, much of the power that existed in the beginning times of earth has been dismissed, set aside or debunked by logic. Jesus healed those who would accept that they could be healed and He understood that even He could not force anyone to receive the gifts if they did not trust them.

Here the Earth stands in "modern" times. In the midst of all of the conflict and confusion that the EGO has set in motion throughout eons of human existence. The Earth is making the greatest change it has ever made and the finite mind wants to push the outcome far away, out into the unformed future where no one has to deal with what is happening. The Earth has come to these places of change before and each time people decided not to "take the chance on something that they cannot see, hear, taste, touch or smell." The EGO's whispers, down through time, have created a

paralyses of fear. Once more ALL are called. Will you be the one to choose to remember, even though the step you take is into a vast, awesome, Loving unknown? The paradigms on the planet are changing now. Spirit is returning and the Soul is being reawakened. The Love without condition and the power of Truth are set free. The Magick of the Ancient times is moving into place so that all who are willing can remember that they carry within themselves the power of creation in balance and harmony with the Divine.

Hold to what was. That is a choice. Choose to destroy what does not please you. That is a choice. Deem to live that which you were created to be in the beginning, with all of the wisdom that you have accrued in lifetimes on Earth. That is the greatest, most powerful choice of all and it takes great courage and vast amounts of Faith, which many believe they do not possess. To step beyond the walls, facades and shadows of lifetimes ensnared in the Illusion of EGO and its desire to control this world, requires that each Hu-man being open heart, mind and Soul to the living waters that the Water Bearer of the Aquarian Age is pouring out. The energy of these times is much more than the electronics, that have enamored the mind. It is the fulfillment of promises of God's lasting commitment to the Earth and her children. The fear of discovery that the laws that God set forth have not been fulfilled, causing guilt and shame and darkness in many minds and hearts. It was never God's intension to cause pain and suffering. The EGO has caused so many to live in separation for so long that they are finding it difficult to even consider that life could be anything but hard.

God didn't stop anything that has happened because there is the honor of gifts given and not to be taken away. Hu-manity was given Free Will. Free Will was an inconvenience to EGO so it was dismissed. God did not forget or deny the gift, therefore, God held the divine laws, set in motion before people were created, inviolate; not to be revoked. All of the judgments and rights to judge that EGO has empowered have not changed God. God has always said, "Try Me and I will prove steady". Only by daring to find your true self within, will you find the wonder of possibilities that await you; not somewhere else, but here, NOW.

2018 is a year of coming home to self in the truest and clearest of ways. The honesty to look at what has been created without judgment or arrogance. The compassion for self and others that life is about growth and learning and one cannot know what they have not yet discovered. As Masters We will assure humanity

that the more you come to know, the more you will realize that you do not know. Faith brings an inner assurance that shores up life's essence and gives a strength that many do not or would not believe that they possess. Trusting the Love that never left you and honoring the life of each and every one of God's creation as valuable, worthy and gifted with living parts of the whole. Every life, truly, does matter, just as every cell in the body is important. Hate is an acidic poison that erodes the body, mind and emotions. Love is the greatest healer and it abides within each person. If they are willing to allow Love to make the necessary changes deep within Love lifts the toxic energy away and brings new, transforming essence that can grant a new life if there is the willingness to accept the changes. The changes that We speak about are not laws set by the finite mind of men that override Free Will, but the choices made at a deep personal level by each being, so that they can own their Mastery over their own life now. These changes are not about controlling the lives of others. There has been far too much of that. These changes are intimately personal and between the Soul and God. The mind ask, "Tell us what to do". We can teach of divine law, but in the final end each person must make their own choices and then honor the choice. This requires living life now, considering the outcome of the choices before they are made and being willing to honestly take the consequences of the choices, positive or negative.

The Illusion has spent far too much time hiding from consequences and too little time seeking to create healing, peace, Love and clarity. When humanity forgives focusing on what they do not what and begins to clearly consider what is important and valuable, rather than what catches the fancy in the moment, the choices will be golden rather than brass. It is time for all to focus on "Where is the path of my Soul leading me?" rather than spending hours laying out a plan for all of the shopping to be done for the holidays. As long as the focus is outward the continued fear of connecting within will be more acute and obvious.

Love, security and peace are an inside occupation. Nothing outside insures what The Power that Created ALL can.

May this season of remembering Love become real. May your days be blessed and may you find what you are seeking and achieve it without pain. In the Greatest of Love, We are with you. I remain your most humble servant. I AM the Lord St. Germain
