July Newsletter

I will be doing a talk show on KFNX, 1100, Independent Talk on July 8 between 4pm and 4:30 pm Arizona time. You can go to www.networkingarizona.net to hear the show. We invite you to listen.

Our most sincere and heart felt prayers and intensions go out to all who killed or injured in the Orlando shooting and all who have been affected or influenced by this tragedy. It is our desire that the hearts and minds of those who can make changes in the use of weapons for destruction will be touched in ways that prevent them from continuing to look the other way. I am clear that peace begins within, but allowing the non-peaceful to continue to murder innocents in the name of the right to bear arms will surely bring a karmic balance. When the second amendment was made guns were muskets not automatic assault weapons.

This is Penticiaus. He is a gnome that Dorian saw at a local store. She brought him home and painted him, which brought him to life, so to speak. He is quite a character.

This is our latest withh ball. Dorian's sister Karen sent it to us after she visited in June. It lives in my office now.

Beginning in January 2016 St. Germain will be teaching about the understanding and application of Spiritual Alchemy. Each Teaching will move us futher into a deeper recognition of who we truly are and how to apply spiritual values to our "every day" lives.
LIVE THE MAGIK!!

New people are beginning to sign up for the 2016 Personal Growth. Don't miss giving this special gift to yourself. As the energy on the planet is accelerating

things are becoming more challenging. The logical approach to life is failing. Nothing is as it appears to be. Yet just beyond the tips of your fingers there is a whole new world just waiting for you to open the inner eyes and move aside the veil of Illusion. St. Germain is waiting to be of assistance, to clarify the confusion and help you to connect with your own inner truth; a truth that is not opinion or based on conflict, but a deep, solid sense of who you are within. This recognition of self is what changes the world. It is the magik and wonder of what you have been looking for.

St. Germain is continuing the “Personal Growth” package in 2016. This has proven to be one of the most popular offerings that St. Germain has given. People are excited about the changes in their lives and express joyful anticipation for the future. Changes on all levels are bringing a whole new lease on life as we evolve into New Humans.

Fall Intensive

Our Fall Intensive is “Embracing the Love and Magik of the New Earth”. As the Love and the Magik of the Ancient Remembering is pouring into the energy of the planet we are required to forgive the fear that the Illusion has created that has made us doubt ourselves and the power of our abilities as Masters. The changes are opening doors to aspects of ourselves and our world that have long been closed away. The attempt to control power has caused us to forget so much that was given to us in the beginning. This is a call to embrace all that we are and begin the journey to living whole once more. We invite you to join us in person. Call or email Molly for more information.

CDs and mp3s will be available.

Our group for July is “Remember the Magnitude of your Prayer Field”. It will be July 10 at 2 pm.

As Revelation is expanding each person’s perspective and the remembrance of your most ancient connections blends into now, the scope of your prayer field is reaching further and further outward. You are

not small and no longer can you pretend that you are. We constantly remind you of who you are because you must not forget. Your impact on the world is powerful and important. It is not about fighting to prove a point, but about holding intentions, in love, that everything that is occurring will reveal what is divine essence has in mind. Be mindful of anger and control for they cannot operate in higher frequency.

CD’s can be purchased on the website at [Click Here for 2016 Groups](#)

Our Teaching with the Master for July is “Sacred Alchemy: The Art of Prayer”. Prayer is a blending with the divine. It is asking to be show the way in quietude and reverence. It is a stilling of the mental chatter. It is the waiting to hear what Spirit has to share. The Art of Prayer is a Sacred Art just as living life well is. Prayer is a path to the Love and Magik that are returning to Earth now.

The Teaching is on the second Wednesday evening of each month at 7 pm MT.

Our Q&A is on the fourth Wednesday of each month at 7 pm MT. Call-ins are welcome. If you are interested go to our website and when the payment notice appears I will send you the room code for the call-in.

If you haven’t had the experience of the Teachings that St. Germain is offering this year they really help us to understand what is going on. It just might be worth your while to check them out. The deep healing power of the Master is there to experience again and again as you listen to the awesome wisdom that he brings. CDs are \$15 for each set—Teachings or Q&A. It is \$15 to call in one time or \$25 for both sessions each month. Postage and handling are separate.

ASTROLOGY

NEW MOON-July 4

Each and every New or Full Moon is a completely unique set of aspects, never to be repeated in exactly the same way again. This New Moon in Cancer along with Mercury and Venus in Cancer, Mars in Scorpio and Neptune South Node and Chiron in Pisces brings

new and deeper levels of understanding of our feminine side.

The sign of Cancer is ruled by the Moon and is the sign most associated with our feminine, receptive principle. Regardless of gender we all have both a feminine and masculine side, yin and yang, negative and positive. The solar feminine expresses creativity, passion, and strength; the lunar male masculine provides support, devotion and protection. For the past 5,000 years, assertion, rationality and independence have been equated with masculine traits, while compassion, intuition and interdependence have been relegated to the feminine. Our spiritual development, indeed our survival on this planet require that the masculine and feminine natures blend and become much more intertwined, on the individual and collective levels.

Whenever another planet aspects the Uranus-Pluto square, the winds of change blow in new directions. Uranus and Pluto made seven exact squares between 2012 and 2015, but continue to remain within 10 degrees of square from 2007 to 2020; their separating square is currently 8 degrees apart, but will be less than 4 degrees apart by the end of 2016. From June 30 to July 7, first Venus in Cancer opposes Pluto and squares Uranus; then Mercury in Cancer does the same July 7-11, and the Sun in Cancer July 7-16—each generating a dynamic cardinal t-square that challenges us to balance our feminine and masculine nature. Those with natal planets or angles at 16-24 degrees Cancer, Capricorn, and/or Aries will feel the transformative pressure most strongly; for everyone, the first half of July turns our attention toward how we are handling our feelings, needs and affairs of home/family. We are required to ask ourselves important questions about care of our personal and personal care of those who mean the most to us.

Water signs are the breath of life of the zodiac, where we are remembering deeper connection to letting go of the past, inner reflection on spiritual values and how we allow ourselves to receive. This New Moon has six planets plus Chiron in water signs. We are required to consider the fact that we were created human beings, but we have become human doings. In a masculine world we are taught to focus outward and receive our rewards from what is before us rather than what lies within us. Time and regard for our inner world are pushed aside in the rush to accomplish outwardly. We have become divorced from our true self and it is time to heal those wounds. Between June 30 and July 22, Venus, then Mercury and the Sun in Cancer form a grand trine with Mars in Scorpio and

Chiron in Pisces, making it easier to open our hearts and allow old wounds to heal by forgiving misunderstandings that have blocked our progress in life. Trines open the way for us to move **ON**. We can only make progress if we are willing to ask for and allow the assistance that is called for to remove obstacles of the past. July provides the ingredients to assist the healing.

FULL MOON-July 19

The Sun in Cancer brings the masculine essence of the solar light into play in the sign that is ruled by the Moon. The Moon in Capricorn again brings the blending of the masculine and feminine energies. Even though Capricorn is considered a feminine sign it has held a much more masculine connotation in patriarchal times. As we look back in time we find much more attention to the Goddess and all that she has represented throughout the development of humanity.

The signs move through the zodiac in a balance of masculine (yang) and feminine (yin). The astrological year begins with the fire of Aries (yang), followed by the earth of Taurus (yin), airy Gemini (yang) and watery Cancer (yin) and so on through the signs. We feel the changes of energy throughout the year by the zodiac, the seasons and how our own personal rhythm's move into sync with the movement of nature's divine design. The logical mind has attempted to change the course of Nature and make us believe that the flow of life can be manipulated but there is always a cost for going against the forces of what God put into place. There are things that must change and things that will change the in appropriate time. As we remember how to listen within ourselves we can reestablish our presence and feel the sense of belonging that is a natural attribute when we "go with the flow".

Cancer and the Moon draw us into ourselves and help us to unite with the creative flow within. Capricorn, ruled by Saturn, bring out of ourselves more and puts us in touch with the world where the things that we learned within can be transformed into creative potential for our outer selves. Cancer draws into intimacy and the interdependence of relationships, our feelings and personal requirements. Capricorn helps us to master the complexities and constraints of physical life. In the balance that falls between the energies of these two signs we find the doorway that

leads us to live between the worlds rather than ensnared by either one. The physical world gives us form and the emotions allow us to move deeper into our inner reservoirs that sustain us to find the strength to create a new and different world. Questions for these times: Where have we stopped providing nurturing and support for ourselves? How do we define our boundaries and keep our inner space clear so that we understand who we are?

At mid-month a water grand trine of Sun in Cancer, Mars in Scorpio and Chiron in Pisces at 25 degrees directs us to slow down, be still within and quiet our lives to experience a reset of inner personal alignment. Mercury and Venus in Leo trine Saturn in Sagittarius, shows us ways to explore our creative potential and courageously act on our ideas, while the quincunx to Neptune suggests that the heart would be a better leader at this time than the head. Saturn and Neptune make a semi-square to the Moon and sesquiquadrate to the Sun highlight the necessity to be proactive and take a leap of Faith. Uranus's approaching station retrograde on July 29 at 24 degrees 30 minutes Aries sesquiquadrate Saturn and semi-square Neptune—inspires our requirement to feel free to make our own choices.

People focus outward and attempt to amass things—money, possessions, even time, in order to accomplish more. The truth of divine creation is just the opposite. **YOU MUST FIRST FIND WHO YOU ARE WITHIN AND THEN ASPIRE AND ACCEPT THE POWER OF THE DREAMS THAT YOUR SOUL WROTE IN THE SCRIPT IT CREATED BEFORE YOU CAME HERE.**

YOU HAVE NOT CALLED FORTH SUCH COURAGE OR TRUSTED YOURSELF SO CLEARLY IN MANY LIFETIMES. THIS IS NOT ABOUT PREFECTION OR FAIRY TALE WONDER. The changes are filled with chaos, imperfection, denial, fear and the breaking down of all that the Illusion has given you that is a Shadow of Truth. In this place of up heaval you can find the things that you have felt, that you have sought and bring into being for yourself.

QUOTES FOR THE MONTH from St. Germain

In the Chaos of the world there are new beginnings coming forth. The chaos makes a space for the magik to return. In the magik there is remembering of the power that was given in the beginning of creation. You live your Mastery once more, in Love. --St. Germain

When you look out into the world you find the limitations that the Illusion has perpetrated. When you take the time to gently enter into your own sacred space you find all that has waited throughout time beyond time. You find the fulfillment and joy that the world has denied and the courage to live it. — St. Germain

Out of the mist of long ago emerges the Truth of the Ancients. It fills the places that have been empty and brings you home. The Truth has never been somewhere else. It comes in the moment that you will allow it. Open your heart, your mind to hear the song of your Soul gently playing within. Be still. — St. Germain

Everything is energy. Nothing is separate from anything else. All are one. When every person, thought, feeling, desire, passion, fear, pain and question is blended in Love the divine plan is revealed in each heart and Soul. —St. Germain

ST. GERMAIN'S MESSAGE

The changes must come quicker because the time/space continuum is shifting so rapidly. Everyone

on earth is a Master in the remembering and the choices that are being made are Master's choices no matter how they appear. Some are beginning to allow the new hope to filter into their consciousness and bring illumination that lifts the heart/soul and mind. The delightful sense of new found freedom within does not come from some escape from the old ways for a moment, but from an inner realization that the sense of entrapment was an Illusion. Others are clinging to the old ways in the belief that if they just hold on long enough things will "go back to how they were". The blindness to new ideas and the deafness to the clarity of spirit's enlightenment holds those in the darkness of what no longer exists and offers nothing but a fearful future.

We are seeking to assist all to recognize that the use of energy on the planet is changing and attempting to use energy has you always have, as long as you can remember, no longer serves you. You may say "I don't feel anything", but when there is another mass shooting you feel. You may feel anger at the injustice. You may experience fear and/or outrage. The mind begins to twist and turn over "what can I do?" Before you react in the same old ways of fighting the wrongs and killing the killers, STOP and go beyond the roiling energy of the EGO driven mind. Feel into the center of your being and allow yourself to go deeper—beyond the pain and suffering of lifetimes and connect with the deep, loving compassion of the essence of what you truly are made of. In the throes of negative emotion, you cannot see/feel clearly so give yourself time to connect with the source of all good within you. You have been indoctrinated with self-judgment, low self-esteem and guilt for life times and it is time to allow yourself to experience using your energy in powerful, positive ways. Arguing, attempting to prove to others that your ways is right and the only way things can work is antiquated. Those who solely believe in the power of money above goodness are convinced that they are not required to change because they can simply keep the inappropriate use of energy going forever. As long as the world keeps fighting back the EGO can keep the same old tired patterns of Illusion going.

Revelation is shining its light everywhere. More and more of the places where things have been kept secret are being revealed. For years' tobacco companies swore that smoking was all right and that there was no hazard to health. Finally, there was enough information brought to light that no one could really ignore what was going on. The NFL swore that concussions were nothing to worry about until enough people died or became demented that they had to at least admit that

there might be a problem. Men with money will go to great lengths to prevent their children from going to war, but there is little concern for the rest of society. If other men's children die it is a noble sacrifice. Masters, humanity is being put on notice to realize that if one person dies in conflict (in conflict, not just war, but any fight) everyone on this planet suffers at some level. Street fights, domestic violence, any form of fighting that brings wounding or death must be considered, not as a place to win over others, but as a place where no one ever truly wins. Youth is being sent to the battle field with a promise of a lot of money and education, but little or no concern for the precious life that can be taken in a moment. It is time, in fact past time, for humanity to begin to recognize that all life, any life, no matter who it is, has value. Painting those who are not like you as unworthy, calling them animals to be destroyed because in the Illusion nature has been relegated to a place of little value, reflects back to any and all who make these judgments. When the gun laws of the second amendment were set into place the guns were muskets and it took enough time to load a gun for a man to consider what could happen. Automatic weapons take away the consideration of conscience and allow immediate reaction without a hint of regret before the act is done. Guns do not kill, the desire to destroy the lives of others kills. For as long as anyone can remember humanity has feared "Dark Magic", yet the fear of the modern technology that allows someone to kill or maim without warning is spawned by the same inappropriate desire to quickly and secretly destroy the life of another and feel justified because it was done with a gun instead of a spell. The EGO creates a god that smiles on destruction and delights in the killing of the *enemy*. GOD is Love and feels tenderness and compassion for all of creation. Neither God nor the Masters take sides in humanities wars. We are called to use energy in the most powerful protection of Love and it changes the course of the earth's ongoing. The very fact that the time/space continuum is shifting brings events to occur much more quickly so that humanity can realize just how deadly their old reactions are. Things must happen so fast that the recovery time to forget and "go back to what you were doing" cannot energetically re-form before you are confronted again with the outcome of your own personal actions. Laying blame and pointing fingers is happening so much that people are getting tangled up in their own judgments. The right-use-of-will is quite different than the righteousness of EGO. Willfulness is far from the clear understanding of conscious action.

The further the Aquarian Age moves into place the more obvious the new paradigms become. We keep

saying that Love and Magik are beginning to transform the world from the depths of each being. What we are seeing the most is all of the old fear of being a Master rising to the surface.; that fear of what others might think if they find out that you are a Master. More important what do you think or feel about the idea that someone else is special? The EGO goes immediately to the fear that they might be better or more special than you. What if you are just as important? It isn't about proving that you are just as important, it is about getting comfortable within your own skin and enjoying fully the glow of experiencing Love all of the time. Can you live in Love or must you waffle back and forth about that reality?

The EGO has been so cunning at creating smoke and shadows in the Illusion and now all of that is being pulled away like tattered veils that no longer serve anyone. The aspects of humanity that no one wanted to look at, deal with or even consider that they existed are being brought before everyone in glaring detail on an almost daily basis. Many people are still attempting to bury their heads in the sand, but even the sand is blowing away in the winds of times past. We are not talking about only the bad things or the shameful past, we are talking about the strength, Love, beauty and wonderful aspects that each and every person possess. Many people cannot bear to accept that everyone on this planet has both good and bad within them. Most choose to believe that most people have more bad than good, especially if they don't agree with the beliefs of those who hold the idea that most are just plain bad.

As Masters we do not entertain pity or sympathy because they are wasted emotion, but we feel deep compassion for the challenges that the change in paradigms is bringing to the planet, even though it is truly good news becoming clear. It is clearing the grime of past times from the lenses that humankind sees through. Clarity is a vital factor in positive creation.

We hold prayerful intensions for all that have been touched by the constant barrage of death and destruction on earth. The choices of all are a part of the shifts. No one's choices are discounted or overlooked. The choices to help, to heal or to harm are all considered in these times. Karma does not measure by how much money, worldly goods or ability to manipulate others by force is possessed by anyone. The thoughts and motivations are weighted, as well as the deeds and no one is exempt. Humanity has believed that if the words are not said out loud or the ideas expressed beyond a certain group of people who

agree that God will overlook the way the energy is being used because "no one knows". People will say "I don't want God to know what I think or do." God knows, but even more importantly, ***So do you!*** God has no requirement to judge because karma is the law of balance set in motion before humanity was created. However, humans still have not released the need to judge so they will silently judge themselves as well as others, because all are truly one.

We hold you all in Love without condition. We are waiting to offer support. The law of Free Will prevents us from swooping in to force changes, but when the willingness is expressed at a heartfelt/Soulful level the door stands open and we will move to be of assistance. There are times when we must practice great discipline in order not to break divine law, but we have come to understand throughout time that interference upsets the balance and brings karma into play quickly in the lives of all connected. The depth of self-value that exists within each being on earth is such a wonderful, shining light. We delight in the experience of watching humanity make these changes, just as we feel compassion for those who reject the possibility that they are a part of the joy that we feel. In the balance of light and dark the planet is arising to new heights and the shell of old limits is breaking apart so that everyone can emerge into the New Earth now. One person does not lead the masses to their evolution. The few do not decide whether the many have right to revelation. All of those facades of Illusion are breaking down and blowing away in the wind. There are those who say that they believe that only GOD knows what is right and true. God gifted each Soul with the ability to know within self the wisest and best choices for one's own on going. Interestingly, those who say that only GOD knows then proceed to tell others what GOD wants. If only GOD knows then how is it that only a few deserve the "inside track", so to speak. **WAKE UP!!!! Pay attention!!** This is about everyone, not just a few. Please, do not count yourselves out.

In the greatest of Love We are with you. We hold the protection and empowerment of the divine for all. I remain your most humble servant. I AM the Lord St. Germain. I bid you Adieu!
