

November Newsletter

As this newsletter goes out we are experiencing our fourth snow of the “winter”. Each one has been about a foot of snow.

I look scarier than the pumpkin does.

I haven't carved a pumpkin in over thirty years.

Our Fall Intensive “Elements and Elementals of Magik” will be November 10, 11, 12.

St. Germain has given teachings on the Elements of FIRE, AIR, EARTH and WATER leading up to this intensive. If you have not gotten this information it will be helpful for the intensive.

The elements effect everything in life. Each person has a primary element that is the element most easily accessed in many situations. It also shows in the personality and the nature. All elements are accessible, but the primary element is a personal dynamic. The elementals—gnomes (earth), sylphs (air), undines (water) and salamanders (fire), as well as, Aether (spirit) are a natural part of life and even though most of the time humans have little or no awareness of them they still play a very important part of life in general and how the natural aspects of life function. St. Germain will talk about our elements, how to work with elementals, how to interact with aspects of nature

and how to become much more attuned to how they feel, look and respond positively. We have been so long deliberately out of sync with nature, but as revelation brings us into harmony with the truly important factors of Life once more, the magik, which is the true living of Life, is reinstated, no matter what the beliefs of more recent times have mandated. Magik is only to be feared if there is the breaking of the Divine Laws that set it in motion in the beginning. The intensive will be from 10-2 on the 10th, 10 am to 6 pm on the 11th and 10 am to 4 pm on the 12th. The cost for this three-day intensive is \$350. We invite you to join us here is Lander for enlightenment, excitement and expansion, with the Master St. Germain.

We invite you to join us in person. Call or email Molly for more information.

CDs and mp3s will be available.

Our group for November “The Ancient Magick”. The Ancient Magick was pure, raw power. It was neither good nor bad but neutral in nature. What directed the power, as it still does today, was the intensions of those who called the power to serve them. The power has always been available to all, but the Illusion has cast veils of disbelief and disempowerment so that today many people look to something or someone outside of themselves to provide the power that they require to create the life that they desire. The Magick is returning and the essence of it is still pure and raw energy. It is for humanity to examine their intensions and get very clear that doing harm brings no good result. The karma may not be instant, but it is dependable. Karma is not punishment, but the balance of Divine Law of Love in Love.

Our teaching for November is “The Element SPIRIT”. For the last four months St, Germain has been discussing the elements—FIRE, AIR, EARTH and WATER. November brings the final element—

Aether/SPIRIT. Spirit is always the final and central element when casting a circle. Spirit embraces the AIR in the East, the FIRE in the South, the WATER in the West and the EARTH in the North. In these times of Revelation and renewing on Earth, Spirit is drawing everything and everyone together in an embrace of Divine Love at fills us within and allows the heart to open and the ever-moving circle of Love to bring the old wounded emotions from the past to the surface to be healed. Logic wants stop war with war, but when the intension to heal brings harm the balance of karma returns three-fold or more to those who have no consideration for the good of all. Spirit lifts us up to see everything that is happening on the planet from an entirely different perspective. May the elements bring Love and protection to All. Blessed Be.

.

The Teaching is on the second Wednesday evening of each month at 7 pm MT.

Our call-ins for the Teachings allows you to join in to hear the teaching and ask questions at the Q&A.

If you haven’t had the experience of the Teachings that St. Germain is offering this year they really help us to understand what is going on. It just might be worth your while to check them out. The deep healing power of the Master is there to experience again and again as you listen to the awesome wisdom that he brings. CDs are \$15 for each set—Teachings or Q&A. It is \$25 to call in one time or \$40 for both sessions each month. Postage and handling are separate.

ASTROLOGY

TAURUS FULL MOON-November 3-4

This Full Moon in Taurus is a Super Moon, meaning that it is in perigee, it's closest proximity to Earth, synchronizes with the Full Moon. The Moon appears very large in the sky and we tend to feel its influence on our emotions in a more dramatic way.

The Full Moon coordinates with Samhain, which is the mid-point between the Autumnal Equinox and the Winter Solstice. The veil between worlds is thin and therefore, connection with the other side of life is much easier. Typically celebrated on November 1, Samhain technically occurs when the Sun reaches 15 degrees of Scorpio (November 6-7). This is a gate of power that reminds us that we are directly connected with much deeper elements within ourselves than daily life allows us to consider. We are reminded to live life fully and remember to value all of our personhood.

Venus ruled Taurus is the earthy, sensual expression of the Goddess of Love. The hedonistic aspects of life and material affairs are accentuated. Taurus is the first of the earth signs and as such, focuses on the basics of survival - food, shelter, money and other resources. It requires comfort and security. The physical requirements of the earth can give us comfort, but security is something that can only come from within.

The collective consciousness is being called to let go of unhealthy attachments. Venus in Libra makes a tight opposition to Uranus in Aries. This lunar cycle started with a very Uranian Full Moon (October 19), and these themes of disruption, revolution and liberation culminate at this Full Moon. Uranus accelerates consciousness and thrust us into a higher perspective. Venus is the planet of self-love and this Full moon illuminates deeply buried issues of worthiness and personal value that keep us playing small and closing ourselves off from the greater flow of life. We begin to see what is required for us to release in order to more awareness and vitality in our lives. Jupiter in Scorpio for the next year falls conjunct the Sun at this Full Moon, indicating that releasing what no longer serves us is a key factor to experiencing greater expansion.

The Sun and Moon square Ceres at 12 degrees Leo, intensifying the themes of holding on and letting go.

Ceres, the Earth Goddess, is associated with agriculture, fertility and nourishment. Ceres/Demeter has a natural association with Taurus. Her daughter Persephone's descent into and eventual return from the Underworld reflect the Scorpio dynamic of death and rebirth. Through the dual roles of Earth Goddess and Dark Goddess, Ceres is the embodiment of the Scorpio-Taurus polarity. Life is to be lived, not in opposition, but in the recognition that all of life is a part of the whole.

This Full Moon can bring intense emotional swings and grief and rage from the past can rise up to be forgiven. All of humanity is being taken into the depths of what the Illusion has held as truth and in that internal connection with the Underworld each person is being brought to release and forgive what was in order to experience the appreciation of the fullness of life. We are, of necessity, placed in a position to recognize the best of life when we let go of the shadows that we have accepted as real. Ceres in Leo can put us in touch with childhood wounds that have blocked us from living ourselves fully in this life. We may grieve the lack of nurturing and even feel a deep sense of sadness for how the Earth Mother has been devastated.

The heavens are sending constant and clear messages through the downloads from the Galactic Center into the pineal and pituitary that it is time to live new and different rather than waiting to "go back" to what is finished. Each Full and New Moon bring the next level and the next as we are leaving a way of living that has become altogether too painful, as we move into more expanded and beautiful potential. What we are seeing is the manifestation of the last of the Illusions passing and the outpouring of the New Age's blessings changing our lives completely.

SCORPIO NEW MOON-November 18

The New Moon in Scorpio comes as the nights are getting shorter and the Earth is moving into rest after the harvest is complete. Since the New Moon is the darkest time of each month in Scorpio it is very dark at this time. We are reminded to live our life to the very fullest and appreciate the fact that birth and death are always a part of living.

As a sign of fiery water, Scorpio dwells upon the feeling nature. The Underworld, the places of shadows, the deepest realms of our selfhood are all

under Scorpio's rule. There we will meet our core motivations, desires and truths by plumbing the depths of our emotions. The felt truth may not make sense to the EGO mind and our desires often take us out of our comfort zone. When we embrace our deepest desires, we must "walk to the edge of our comfort zone and take the next step into the unknown". Facing our fears in order to manifest new growth takes us into the mysteries of Scorpio's realms. Scorpio is a prime manifester which means that consideration is required because you will, more than likely, get what you asked for.

The power of Scorpio is wonderfully regenerative and can be applied to any area of life where things feel stuck or stagnant. Relationships of all kinds – sexual, emotional or financial – can be empowered by the transformational elements of Scorpio. The magick of Scorpio is accessed as we let down our defenses, share ourselves in the most vulnerable ways and surrender the Illusions of control.

Scorpio is a fixed water and the fixity is seen in areas of our lives where the emotions are dammed and the flow of sweetness that feelings bring is missing from life, therefore the creative energy is limited in all parts of our development. While the lower vibration of Scorpio is the Scorpion – striking out with its stinger to defend and protect the wounds of the past – the symbol of the higher aspect is the Eagle that flies high enough to see the wounds and move toward them for healing with an open heart.

The quincunx between the New Moon and Uranus at 25degrees Aries just underscores the sense of being shaken out of our complacency in order to get life moving again. There is a necessity to break old patterns of defense and reaction, and move forward into expanded awareness of our true self. Chiron, the Wounded Healer, makes a trine to this New Moon increasing the ability to overcome the hurts of other times and trines from Jupiter and Venus in Scorpio to Neptune in Pisces gentle the healing. As we are connected more to the internal awareness of the Universal presence in our lives it gets easier to navigate the depths where Scorpio takes us. There is nothing to hide or defend as we remember that we really are all one.

Mars and Pluto, the traditional and modern rulers of Scorpio, are in a tight square. Scorpio, Mars and Pluto, all represent elements of power. This square tests us to see how we are using our power, as well as, stirring up issues of powerlessness. Without the connection to our own personal power we can over

react and fall into competitiveness and struggle which is all too prevalent on the planet now. We may begin to see ourselves as victims and give up on our dreams. There is also the tendency to attempt to manipulate others – the classic shadow of Scorpio.

Mars sextiles to Mercury in Sagittarius and the North Node in Leo can show us a different path to resolution – we can speak what we feel with Love and compassion. These are not times to keep secrets, but to live transparently. As we live ourselves truly, there is a deep sense of comfort and security that cannot be found in facades and masks. Saturn's conjunction with the Galactic Center at 26 degrees Sagittarius lends support to releasing old patterns and beliefs that keep us stuck in reactivation. Every step we take forward brings a greater, more power awareness of the amazing evolutionary journey we are on.

QUOTES FOR THE MONTH from St. Germain

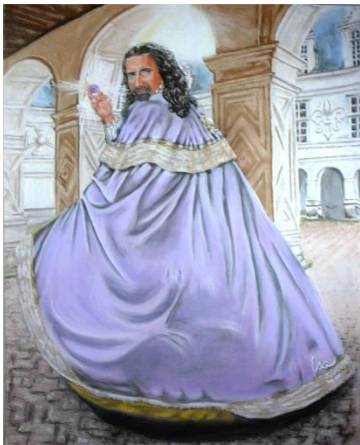

When you truly Love what you create there is no dependency on what others think. – St. Germain

Live close to nature within yourself. Nature is everywhere, even when you cannot see it. All that you require is to allow its essence to fill you up. The Love within is waiting. – St. Germain

You are charting a new course against the backdrop, not of the past but of the future, against a new backdrop of uncharted futures and uncharted possibilities ... futures and possibilities free from the scars. – Lazaris

As you release the Illusion, it can no longer hold on to you. As you trust the Love, the Love is willing to prove itself again and again. As you surrender things that were impossible, they NOW become completely possible. Take the next step. – St. Germain

ST. GERMAIN'S MESSAGE

To Love self is something that has been talked about and spoken of for years. The logical mind always asks, “How do I do that?” The shifts in the essential elements of the collective consciousness that began at the summer solstice 2017 and has been building with each point of acceleration—July 23- Sirius Rising- August 21, total eclipse, September 21-23-New Moon, Autumnal equinox, Sirius setting and moving to points of acceleration at the Full Moon and New Moon in October. Each aspect has pushed to open hearts that have been closed for life times, to bring to the surface of the collective consciousness the wounds of judgment and separation that are dividing the Earth’s people. Spirit has no investment in the “right or wrong” opinions of humanity. Opinions may be strong, entrenched and long standing, but that does not make them True.

The necessity to connect to the spiritual center within self is becoming an imperative. The channels are open, the more the heart is open the greater the potential for each and every being on the earth to experience the recognition of the alliance of self with Self and with the collective whole. The suffering that more and more people are feeling is not new, but an outpouring of the old, diseased, stagnant energy that is damming the flow of the new healing essences that are seeking acceptance by each Master in the becoming. There is not one person on the Earth that is not involved in the potential of living their Mastery. All are Masters in the “Remembering”. It is one thing to know that you are a Master or even to be a Master, but it is so much more to embrace your Mastery, to live it and to experience the gifts and revelations that are available to any and all who are willing to surrender to the guidance of Spirit. The EGO is leery, suspicious, fearful of anything that sounds as though it can take away the right to do what is desired. On the other hand, the EGO will give power away to those who will promise to make life easy, make you rich or “defeat

your enemies” without requiring any personal involvement. The EGO waits for “them” to do something and then the EGO complains that what has been done is not good enough, wasn’t done fast enough or was in some way exclusive. The chaos and dissatisfaction of humanity becomes an angry buzz that defies spirit to reach each Master and bring new awareness.

THE SOUL’S JOURNEY HOME

Finding the Path of reconnection is a journey within, not without. Feeling the growing awareness of greater Love brings the courage to take the “next step” in personal evolution. In a quiet time allow yourself to move, energetically, to the edge of your comfort zone, where you begin to feel fear or dread, where you want to draw back, where you refuse to change and in that place of transcendental expression take a step into the “unknown” of your new self. The EGO is good at creating feelings of overwhelm or the incapability to move forward, so making the movement (changes) requires courage and self-motivation.

The whole of humanity is experiencing changes that are occurring at the most basic, cellular levels. Transformation is taking place because it is time for the collective of human-kind to make quantum shifts in consciousness. Old patterns of fear of risk and delaying tactics to slow down progress are being bypassed in the process to accelerate human evolution. This is not an over-ride of free-will, but a liberation of the ability to make wise choices in crisis situations. Rather than reacting to the unexpected in the same old limited ways the deeper the connection with True Self the more wisdom is accessed. Wisdom often offers answers, choices and opportunities that do not appear to be logical or practical in the moment. Feeling the power of self-discovery reveals facets of Self that have been buried in the limits of Illusion.

At every new opportunity of choice there is the requirement to feel the power of Love directing the choice toward further Self-awareness or the EGO’s determination to hold the patterns of dissension in place as long as possible by making change frightening. Fear, doubt, suspicion, and mistrust are very entrenched patterns that prevent the willingness to discover who others are and what they believe, feel, desire. This continues to lead to preconceived notions that maintain separation. The intellectual mind has made rules to measure others as acceptable or not. These rules are based on judgments, many of which are so outmoded in the 21st Century that they could be amusing if it were not for the destruction and damage

that they cause. To feel into people requires that there be an internal openness that goes far beyond mental assessment. First, the openness is required to be felt within self.

Humanity is seeking to find “something” that is missing. People are looking everywhere. Some, who have not identified with the church are turning to religion as a safe haven. Some are looking to science and technology. The issue is that the answers involve all religions and science and technology, plus a return to nature and a much greater acceptance and awareness of self. Home is not just a physical abode or a religious sanctuary, home is the alignment of the energy bodies—mental, physical, emotional and the blending of Spirit which embraces the whole. Every time you are faced with a choice you have an opportunity to choose Love, compassion and the higher expression of the Master that you are. The EGO whispers, “It isn’t safe to take the steps to find out who someone is. Just rely on the old rule of “Shoot first and then if there is anyone left standing questions can be asked.” So as the planet is moving along an evolutionary spiral there are the questions arising, “Who do I trust?” The answer, “First trust yourself. If you cannot trust yourself you will doubt everyone, including GOD.” “How do I know that I can trust them?” That is where reconnecting and recognizing how being at one with Self and the Whole is imperative. It is most interesting that animals have an innate sense of whether someone is trustworthy or not. Humans have had that sense of recognition, but have, over time, allowed it to be set aside in the name of progress. It really is not going backward to reconnect with the intrinsic awareness that are God given, but it does require forgiveness of the belief that is humanity is superior to nature or anything or anyone else for that matter. **All of God’s creation is divine. Who in the whole of that creation has achieved the right to sit in judgment on what God has made?**

Each being, each animal, each element of nature, each doctor, lawyer, scientist, priest, artist, technician, leader, ruler, judge, laborer, craftsman, teacher or any of the multitude of opportunities of choices that humanity can make is no greater or lesser than anyone else or their choice. The pain of **being less** is one of the deepest of wounds and everyone is being confronted with the necessity to heal those wounds so that the bright new visions of where the Earth is going can actually be seen. The EGO wants to prove that it is better than others. Superiority is one side of a coin and the other side is inferiority. The balance comes when everyone begins to forgive choosing sides.

It takes great courage to **TELL THE TRUTH!!** Not the truth “as I see it”, but the Truth. The Truth feels different within. When there is a willingness to allow faith to lead the way the Truth lends strength to the resolve to stand for the alignment with honesty and integrity. Many people have withheld the Truth in their lives. Some are beginning to step forward and speak of things that have weighed on their minds and souls for years. It is interesting to see that the deterrent to being honest and in integrity is often money. Money is a power symbol in the World, but when the choice to align self with Self is made Spirit is far more powerful, even in the physical World. The fear of living life in clarity, prevents to ability to live life well. Hence, the virtues of courage, faith, integrity and compassion are more often set aside. It is most challenging to live courageously if there is a doubt that it brings safety and protection. When the feeling of connection to Spirit is strong within, the Love that is still the most powerful essence in the cosmos, is recognizable. Love is greater than any earthly insurance because it carries the assurance of support **NOW**. Everything that occurs in life requires choice. Choices made in fear are limiting. Choices made in faith come with the connection to the internal directive of Love. Love does not instruct anyone to kill, use violence or destroy any part of God’s creation. Reaction leads to more fear and a desire to hide away from a World gone mad. Choices made based on Divine Wisdom are not directives to override the free will of others, but to find ways in which all can benefit. The EGO says, “It is impossible for all to benefit from any situation”. Spirit sees beyond the confines of the finite mind and as there is a willingness to see things differently, the inner vision is expanded so that aspects of the greater picture are revealed.

THE GREATEST FEAR IS CHANGE. Humanity gets into a *comfortable rut*, and does not want to make the effort to find something better. “Hell is not wanting to know that there is so much more to life than strife and struggle”. **Dare to change.** The EGO asks, “How do I change?” Take the time to consider, “If I actually were to lose the things I worry about losing, who would I be?” Feel into the possibilities that the freedom of not having to carry those things might actually make life easier. What if you might lose a job that keeps you from being more? What if you step away from a relationship where there is no value or self-worth for either person? What if the house that was supposed to be a dream is taken away? Can there be acknowledgement that the dream had become a nightmare? **WHAT ARE YOU HOLDING ON TO THAT KEEPS YOUR HANDS, YOUR HEART AND YOUR SPIRIT FULL OF ANGUISH WHEN**

LETTING GO WOULD MAKE ROOM FOR MORE? Spirit does not advise rash behavior. Spirit advises patience and clarity, in order to make wise choices. The EGO pushes — “You’ve got to make a choice. You don’t have time to think about it. Hurry up, you’ve waited long enough.” When you find that you are putting pressure on yourself. Stop!!! Take three deep breathes and move your energy to center. About the only time that snap decisions must be made immediately is on a battle field, whether that battle field is in an external war or an internal war. Everything in life requires choice. It is imperative to trust your own ability to make wise choices. Who told you that you don’t make wise choices? It is time to forgive them for judging and yourself for accepting that someone else’s opinion is more accurate or valid than your own.

Every time you make a choice to value your own wisdom feel the strength that it gives you. If you must fight about your choice or make a defense against the ideas of other, you do not agree with your own choice yet. Truth requires no defense. Masters do not make excuses, give a defense or explain why they do things; not because of stubbornness, but because they take the time to consider the outcome of their choices before they make them, so that they are comfortable within themselves. **NO ONE IS RIGHT ALL OF THE TIME; NOT EVEN MASTERS.** It is to learn from experience, rather than blindly defend the right to be wrong.

All of humanity is Loved. Everyone is blessed. Remember that if you withhold something from another, you withhold it from yourself, also. “I cannot forgive them”, simply means that somewhere within self, there is a place where there are unforgiven parts of your own nature that bring guilt, pain, suffering and disease. Forgiveness is not dismissing the actions of others as unimportant. Forgiveness is taking the path of compassionate objectivity, rather than judgment. It is to Love the person, even though their actions may seem unbearable. That, Beloved Masters, takes tremendous courage and a willingness to take the next step on the Journey of Remembering, rather than holding onto a past that no longer serves where you as a Master are moving.

Love is the greatest healer. Many would say that death is a great healer, but death is simply an escape designed by the EGO, that leads in a circle back into human life. Escape is not a part of the path of Mastery.

You are Beloved. You are Divine Creative Masters. We are with each and every one. If you do not feel us, it does not mean that we are not there. Forgive trying so hard to find us. We are much closer than you might believe. **I REMAIN YOUR MOST HUMBLE SERVANT. I AM the Master St. Germain.**
