Happy New Year! May 2018 be blessed, joyful, prosperous and healthy in every way. Love from Molly and Dorian

The theme for 2018 is The Reunion of Self with self. CDs and mp3s are available of the New Year's Eve session and the Full Moon Ritual and Meditation on New Year's morning at 12:30 am MST.

The chambered nautilus in the center of the alter is for drawing abundance and prosperity from the Universe. White candles are for clarity and purification and yellow candles are for good cheer and happiness. All of the elements were called to close the circle—AIR in the East (yellow candle), FIRE in the South (red candle), WATER in the West (blue candle) and EARTH in the North (green candle). The purple candle just behind the shell represents Spirit. The purple and teal dragon on the left side of the alter calls the Ancient Magick and the orange baby drangon, just emerging from the egg, on the right side of the alter represents new wealth and prosperity. Behind the Spirit candle is Lapas for Truth and Rose Quartz for Love.

The energy of the alter was shimmering about a foot high by the time the ritual was completed. This was a very different way to call in the New Year from the past. Lord Michael, Jesus and Kwan Yin were present, but did not speak. They shared their blessings for humanity with energy rather than words.

Autumn had her first birthday on December 19.

Ready for the party to begin.

Opening presents.

The best part, the cake. The foot goes into everything that she eats on the floor.

### Spring Intensive

St. Germain will be offering an Intensive "Living the Virtues Brings an Elegant and Powerful Life". May 25, 26, 27, 2018. St. Germain will continue the theme for this year of how the Virtues enhance and bring new magick into our daily lives and affairs to enrich our growth and allow us to discover much more about how the inner world and the outer world are blending.

There are many worlds and the Illusion has prevented these worlds from being known to one another. The fear of other people who are different, has simply been expanded to a fear of any and all things that seem different. This has held humanity in a form of stasis which is now beginning to melt away in the Love that is returning to the Earth. Not the conditional love of only caring for or attending to those that we know, but the Love without a condition that allows us to receive great benefits from interdependence with all of humanity.

This Intensive will be held here in the beautiful mountains of central, western Wyoming, not too far from Table Mountain, WY which is one of St. Germain's special places in the world. This area is filled with sacred vortexes and is a wonderful place to feel the magik, both ancient and now. We invite you to join us in this amazing opportunity to remember the magik and rediscover yourself.

We invite you to join us in person. Call or email Molly for more information.

CDs and mp3s will be available.

---

Each month St. Germain does a group that addresses pertinent subjects of our times. The CDs and mp3s of these groups are \$15 for each set of two CDs. (two hours of information).

Our group for January will be on Sunday the 14<sup>th</sup> and is called "Can Your See Me?" We hear a lot about unseen people who feel as though they do not exist. Perhaps they are ill, handicapped (physically, mentally or emotionally), perhaps there is a fear to show up and be seen or the doubt that anyone cares. St. Germain addresses this question and offers loving advice to help those who have so much to offer, to accept that they are worthy and valuable.

CD's and mp3s can be purchased on the website at [Click Here for 2018 Groups](#)

Our Teaching for January is “The Use of the Virtues in Daily Affairs”. When we live in alignment with Divine Law we become aware of the tools of a Master’s Workbench, the Virtues. Courage, Faith, Wisdom, Nobility, Vision, Clarity, Patience, Truth, Honesty, Compassion, Love and many more elements that can bring a sweeter, kinder, more fulfilling life every day.

The Teaching is on the second Wednesday evening of each month at 7 pm MT.

Our call-ins for the Teachings allow you to join in to hear and ask questions at the Q&A on the fourth Wednesday of each month.

If you haven’t had the experience of the Teachings that St. Germain is offering this year they really help us to understand what is going on. It just might be worth your while to check them out. The deep healing power of the Master is there to experience again and again as you listen to the awesome wisdom that he brings. CDs are \$15 for each set—Teachings or Q&A. It is \$15 to call in one time or \$30 for both sessions each month. Postage and handling are separate.

## ASTROLOGY

### CANCER FULL MOON-January 1-2

The New Year starts off with the power packed energy of a Super Full Moon in Cancer, which brings us to a point of choice: “Do we stay stuck in the past or do we decide to move forward to a more expanded vision and version of our lives?” Do we allow our fears to control our life or do we trust the vast, mysterious flow of life and become the Divine Creative Masters that we are?

Opposing this Full Moon in Cancer are the Sun, Venus, Saturn, and Pluto in Earthy Capricorn, the sign of long-term goals, worldly success and social

responsibility. The grounding energy of Capricorn brings focus and a sense of order to the watery flow of Cancerian emotions. When our inner guidance seems to defy logic, when the flow wants to take us to places that disrupt our tidy plans for how things should unfold, fear and insecurity can arise. We tend to fear intuition because we fear the transformational power within us. An insight the size of a mustard seed is potent enough to bring down an mountain-sized illusion that may be holding us back from finding our true self.

Powerful insights are coming to the fore in the light of this Full Moon, but if we attempt to avoid being courageous enough to take charge of our life we may find ourselves facing the darker side of this Cancer-Capricorn Full Moon. Cancer wants to retreat into its shell, to the comfort of what is known while Capricorn attempts to control, limit or shut down the flow. This Full Moon requires that we soften our defenses, open our hearts and let our intuition show us a totally new way of being with our life. The Grand Trine in water including the Moon in Cancer, Mars and Jupiter in Scorpio and Neptune in Pisces can temper our fears and call the compassion of the Great Mother to help us identify the parts of ourself that fear and resist change. We can nurture ourselves through the process of expansion. We do not have to go through these changes alone. After all they are influencing everyone on the planet.

Since Saturn’s entrance into Capricorn on December 19 the power and stability of Capricorn is magnified. We can lean into the gentleness of Cancer to balance the emphasis on earth. Emotions can feel the grounding influence of the earthy element and the Capricorn tendency toward judgment is softened. We can forgive the compromised belief that we must sacrifice what we desire and what we feel in order to accomplish our goals. Cancer reminds us that vulnerability is a *strength*.

Amping up the Full Moon’s capacity for breakthrough and transformation, Uranus stations direct on January 2. For the last five months Uranus has been retrograde and major changes have been simmering on the back burner or happening on a more internal level. With the direct motion of Uranus we may feel a jolt of energy that makes us aware that changes are ready to happen, which catalyzes us from stagnation to action. The strong Aries activation can inspire the courage and confidence we require to trust our instincts and pioneer a new direction.

Uranus is back within a 6 degree orb of its square to Pluto, a paradigm-shifting alignment that was strongest in 2012-1015. Capricorn is the sign of responsibility, and Pluto in Capricorn says that the more responsibility we take for everything that happens in our lives, the more powerful we become as creators of our reality. Pluto also reminds us that destruction is a part of creation, animating the Dark Mother or the Creator/Destroyer, who says, “Wherever you have become stagnant, static or complacent in the way that you identify yourself or your reality you are being moved to embrace the volcanic energy of change.

### CAPRICORN NEW MOON-January 17-18

The first New Moon of the New Year features six planets in Capricorn, which calls us to listen within for the assistance of Spirit to help us take action in our lives. As the last of the earth signs the Saturn ruled Sea Goat is a powerful manifester and master builder It has so much potential crystallizing our intensions into form, we would be well served to consider the outcome of our desires and creations before we set them into motion. We may be standing at a crossroads, under pressure to make the “right” decision, but it is our intension and what we commit to that is less important than our motivation. If we are driven by fear, the results will not make us feel good even if we achieve our goal.

We are authors of our own life. Capricorn rules both fear and authority. We have become a society that suffers from responsibility without authority. We are required to do what we are told without asking questions. How can anyone get something “right” if they have no idea what the expected outcome must be? Without clarity failure is almost a guarantee. So often the one in charge is afraid that someone else will, potentially, do things better and therefore, the design to create directions that leave out important points, is simply job insurance. If we are attempting to reach our goals with scattered energies we would be well served to take some time alone, get our priorities clear and get grounded so that we are not chasing rainbows, but following our path. When we are connected to Source it gives us the ability to make wise decisions because we are in integrity with our true self.

When there are choices made that correspond with the flow of the Divine in the life the energy in the center of the body feels good. Rather than just focusing on what you want, feel into the desire and

make sure that it is really for your highest good. If the outcome of achieving the goal leaves a flat or empty feeling, then a lot of energy was directed into creating a less than positive outcome.

Mars is moving through Scorpio and forms a sextile with this New Moon that supports our connection with our deepest feelings and desires. Jupiter in Scorpio sextiles Pluto, modern day ruler of Scorpio, reminding us that our material goals require to be energized by passion—what truly excites us rather than what we think we should do. Without the emotional drive behind our intensions we will not have the ability to overcome obstacles and meet the challenges that life can bring. Bringing in more support from water, Jupiter and Mars trine Chiron in Pisces, while the New Moon sextiles the Wounded Healer. This alignment inspires us to take on ambitious healing projects with tangible results, in our personal lives or in the world.

The New Moon squares Uranus, which can bring chaos and disruption into our lives. We are required to surrender control in order to discover the next steps to our personal growth. The element of earthy Capricorn in all of us must learn to master the inner realm rather than trying to make the outer world conform to our judgments of how it should be. This indicates that opening to the depths of our inner knowing is imperative, even if it appears that this monumental change is completely opposite to what we are attempting to create. This Uranian New Moon asks us to trust that we can create something more miraculous than we can imagine, when we let go of our limited agendas and allow the unique and unexpected to emerge.

While Capricorn is considered to be primarily associated with materialism and worldly ambitions the original image of the Sea Goat represents the connection between the physical realm and the waters of consciousness. Capricorn in its highest frequency indicates worldly power blended with compassion. We are now witnessing the evolution of humanity to its highest levels of consciousness.

### LEO FULL MOON Eclipse-January 31

We have experienced three Super Moons in a row with a “battery pack” of dynamic energy fueled by this Full Moon eclipse. The Moon in Leo always inspires heart opening and attention to where our creative energies are being directed. Because this is a total Lunar eclipse, our shadows are being moved away so that we can see more clearly everything in our life that is not yet Love. Feelings of resentment, loneliness or self-pity show us the places where we have closed our hearts and restricted the flow of love. We are not held back by the love that we did not receive in the past, but by our refusal to accept the Love that is flowing to us now in the present.

The solar eclipse at 28 degrees Leo that occurred on August 21, 2017 started a new level of heart opening for all of humanity that has been building and increasing so that this Lunar eclipse magnifies the energy, brings in the essence of Goddess and supports us in accepting that we are safe to let our hearts be vulnerable. Eclipses tend to recur at the same degree of the zodiac every nineteen years and the same lunar eclipse occurred in 1999. As you look at the growth and changes in your love life over the last 19 years, can you say that you have evolved as a lover? Do you love yourself, others, your life with greater passion and purpose now?

As the Moon conjuncts the North Node in Leo, it assists us to recognize that openhearted state that represents our most expanded soul growth. The Moon also conjuncts the Earth Mother Ceres, exactly.

This brings opportunities for healing mother wounds. Leo is the Divine child in everyone who wants to be loved just for our very existence. We could find ourselves grieving the fact that we did not receive unconditional love as children. This grief can soften the hard-hearted attitude that has been supported by the Illusion. Becoming receptive to the love that is here for us can change our ability to allow the love in.

In opposition, the Sun, South Node, Venus and Juno in Aquarius can dispel our attachments to the ideals of love that we have been given. Where do our illusions about love prevent us from actually achieving the relationship that we desire? The South Node in airy, intellectual Aquarius could support our theories that we must stay protected from love because we become too vulnerable. We can convince ourselves that we are better off to wait until we can see how to move into love without losing anything. The North Node in Leo gives us a nudge and encourages us to “take the leap”. There is truly no such thing as failure, but growth can create such chaos that we could get lost in the old beliefs.

Venus, Goddess of Love and Juno, the Divine consort, in conjunction with the South Node, can trigger jealousy and comparison, shadow expressions of the feminine. Rather than getting caught in the Illusions that we have lived, it is best to follow the path of our emotional pain to the root cause. As we can feel the hurt, rejection, abandonment and loss in the safety of Love we can release the old limitations and enter into relationships that operate in the essence of higher consciousness.

The Moon and Ceres are quincunx Neptune, the higher octave of Venus and signifier of unconditional love and unity.

### QUOTES FOR THE MONTH from St. Germain

To reach for the stars, begins with looking within. – St. Germain

The path sparkles with the essence of the cosmos. It attracts like Magick. It feels so good that it is not to turn away. Come and join us. We await you. – The Goddess

The Magick revealed is filled with Light. The magic of control has long danced at the edge of darkness because it seeks to take away the God-given gift of Free Will. Move forward into the Light and allow the old ways to be done. Live the Love. – St. Germain

Each experience of Love nudges us toward the Story of Interbeing, because it only fits into that story and defies the logic of Separation. – Charles Eisenstien

### ST. GERMAIN'S MESSAGE

Greetings upon this New Year, a year of Reunion of self with Self!

Everywhere that the eye can see or ears can hear it would appear that life as it has been is coming unraveled. There is so much chaos that the EGO does not know where to begin to stop the changes that are occurring, many from the very depths of self. The old questions of “What can I do about this?” are no longer adaptable as the finite mind is in overwhelm and **doing** is an old response pattern. Physical activity, for many people, is a way to escape dealing with what is happening **now**. The EGO says “I cannot deal with this situation so I will **DO** something else and maybe when I return someone else will have dealt with it for me.” The cunning of the EGO mind to find diversions

from responsibility is a big piece of Revelations changes, as well as, the many games of distraction that have been created in the name of “protection, secrecy, privacy” most of which have to do with some wound that is being hidden and now all of the wounds of the Illusion are being exposed.

Anger, frustration and defensiveness are responses that distract from what is really going on. People want things to change, but have no idea of what the change would mean for themselves. The logical mind does not consider that change changes everything because every Soul on Earth is intimately connected with all others. The belief that any one is separate from the whole has brought much pain for eons and is quickly, now in these times, being dispelled. The fear of loss is a powerful deterrent to taking steps of Spiritual growth because the mind cannot see where the steps are leading. For example: President Trump decided to honor Jerusalem as the capital of Israel and the beliefs of years of religious ways are being disturbed. The chaos of change is bringing more war and conflict in the middle east; an area that has lived with an uneasy peace throughout time. The EGO mind seeks to set as many fires as possible and while people are distracted by the attempts to put them out, the EGO seeks to take advantage of the distress of humanity. People are angry and looking for some place, any place to focus the anger even if it has nothing to do with the real reason for their fear and judgment. There so many places where those who want a fight can find one; guns or no guns, sexual preference or sexual abuse, women’s rights, racial rights, religious rights, and the list of causes goes on and on. Spirit does not require right and wrong as a point of assessment. ***The need to be right is the stuff of which wars are made.*** The outer World is not separate from the inner world, but the belief that Spirit would interfere with human choice has brought much of humanity to see God as an interfering parent rather than an unconditional source of compassion and wisdom, especially if things do not go as planned. Defensiveness is not a spiritual element. Unfortunately, defense carries the sting of potentially being wrong, in the need to prove righteousness. When there is the confidence of being well with self, defensiveness beings to fade away.

In the midst of the turmoil on the planet the return of elements of Self are being put into place. The deepest recesses of self are awakening and Self is embracing the wounded child within to bring the opening to worlds that exist in the Spiritual connections. People are feeling change and it feels odd; it isn’t totally good and it really isn’t bad, just very, very different and unidentifiable. The Self is moving in to assist in the

awakening, awareness, Revelation and ascension process. There are many false concepts of what revelation is bringing and what ascension really is. The process of Spiritual evolution is not a race to the finish line; whoever gets there first gets to ascend. There are clues in the Master Book (the Bible), such as "Let he who is first be last". Ascension is not a video game to be won and by beating the opposition there is victory. War will not bring anyone home to self. Choosing sides, finding the right cause and all of the outer trappings of conflict offer no long-term healing. There are beautiful souls, both male and female, who are offering up their lives to "protect" others and the missing piece that is sending more and more of these precious Souls home so wounded is, "You cannot heal those who will not be healed and you cannot save those who have a mind set about what salvation is". Dying for others is a choice, but an important question that each Soul gets to ask within is "Do those I am dying for care? Do they even know that I exist?" These are not selfish questions, but worthy considerations before a life that God created is sacrificed as a pearl before swine. Here EGO rises up to protest that long standing beliefs "should not be questioned". The time for change is here and NOW. What was proving to be less and less viable in current times.

To rebel, to interfere, to impose ones self on the lives of others is inappropriate in spiritual realms. The more that spirit is merging with the physical world the less the last vestiges of the Illusion are serving humankind. To look within self and feel the depths of kindness and compassion that exist, available to every one who is willing to make the shift from looking back over the shoulder for the past to catch up, to allowing others to also seek and find their best self with encouragement and support rather than criticism and judgment.

When the world that each Master is creating is filled with the darkness of limitation and the desperate hunger for food, belonging and acceptance, the mind uses those facades to prove that there is nothing else. It takes those who care about where the world is going to assist the children to recognize the power that is theirs, not through war and destruction, but through loving and caring for self and others. To live the example is far more effective than just telling everyone else what they must do. As the world is changing, just knowing the answers does not carry the essence of Truth that having the experience of life in Love does. Each and every Soul deserves to have a beautiful life. Denying that divine right to anyone is denying it to self.

There are many who believe that they are righteous enough to decide who deserves to live well and who must suffer. Forgiveness of suffering is one of the huge changes that Revelation is moving into place. **LIFE WAS NEVER MEANT TO BE SO HARD!!** Time in the Illusion moved much slower, so changes did not come about quickly. The very technology of the 21<sup>st</sup> century brings shifts constantly and nothing stays the same in the physical world. Those who are trying to keep up require to realize that, NOW is the only place that things happen, no matter when they were set in motion. Just wanting things to happen can be frustrating, because it is the willingness to allow the good to manifest that actually bring the desired outcome into fruition. If there is a desire for a good life, but the focus is on getting rid of the bad things there is no energy being put forth to attract the good. Focus on negatives magnetizes negative outcomes in the life. Fighting wrong, again, keeps the attention on the undesirable and causes much of humanity to live in the Hell of what they are creating by focusing on the unwanted. The EGO is quick to take offense, blame others and claim that they cannot help themselves. Every being is amazingly strong and capable when they are aligned with the Truth of what they desire. The awareness of divine power that was gifted to each Soul in the beginning changes everything. It is not about power over anyone or anything. It is discovering how to use the energy of creation that abides within. The union of self with Self begins to open the awareness of how creative each being is. Creation can be negative or positive, depending on where the attention is directed. As humankind awakens to their own personal capabilities, there is no necessity to fight with anyone else for limited good. The unlimited abundance of the Universe is available to all. Helplessness does not bring the good. Many have used helplessness to lure others to give them what they want, but to achieve what is desired without disempowerment is truly divine.

To use creative essence is much like magick. It seems impossible because the finite mind has refused to accept things that are not logical, practical, reasonable and limited. The ability to create is something that humanity uses with every thought, idea and invention. It is where the direction of the creation is focused that brings good and desirable outcomes or more conflict. When people focus on taking money, goods, quality of life, self-respect or other intrinsic rights of the divine away from some of the populace in order for a few to get most of the benefits of life the karmic laws are put into effect. As We said, in the Illusion time moved slowly and sometimes it was lifetimes before karmic balance came into effect. Now, the world is

discovering that things occur so rapidly that sometimes the thought has hardly passed the mind when there are things set in motion that prove that cause and effect are working very quickly now. Those who wish that someone else would suffer for their actions may find that they are instead experiencing pain and discomfort in their own life and affairs. Many of those who have lots of money have lived insular lives (above what the regular folk must deal with). But the changing times are eroding those illusions of superiority and the whole concept of money and how the market place functions around the world is teetering on the brink of major shifts that must take place for balance to be restored on the planet. The magick of understanding how to use Universal energy belongs to all. It is not something created only to serve the few, but the Illusion has devised the belief systems that has caused much of the world to accept that life is just naturally hard and it will never change. All of that must Now be forgiven.

People all over the globe feel that things should be equal for everyone. Spiritually, all souls are created equal, but then the EGO mind steps in and programs the mind and emotions to beliefs about inequality. It isn't that every person should have the same amount of money as everyone else, but that each person would be able to live what they define as a comfortable life filled with peace, ease and well-being. The reason that things in the physical world do seem equal is that there are so many limited ideas of what is good and how to get it. When there is a willingness to find the best in life, life tends to reward with greater good. One man can be in a wheelchair and be grateful that he is alive. Another person may have many blessings and live in constant dissatisfaction because all that they see is what they do not yet have. As the homecoming, the reunion with self is much of the focus for 2018, it is time to access what you are really doing with your energy. If there is a lot of excuses, explaining why you do things the way you do and why you are not like the people that we are talking about, pay attention to how much energy is used in excuses, explanations and defending your personal right to keep doing things the way that you always have. The unwillingness to change prevents much good from ever coming about because the defensiveness sidetracks the positive energy and traps it in limitation.

Honesty, integrity, truth, courage, trust, clarity and courage are just a few of the virtues that We will discuss during 2018 Teachings with the Master. They are not just words, but nuggets of energy that can build a better, more fulfilling life, especially in these modern times.

We seek to assist all who are willing to come home to self. As there is the allowing We may help. In the greatest of Love, We await the opening that willingness creates so that We may empower each and every being on this ball. In the patience and compassion of all time We are ever present. I remain your most humble servant. I AM the Lord St. Germain
