May Newsletter

Happy Mother's Day to all the Mom's and loving memories for those who are no longer with us in the physical world.

Springtime in the Rockies! The valley is turning green, but the winter storms are still rolling in from the mountains. The forecast is rain and snow for the first week of May.

You have three weeks to sign up for our Spring intensive!! This one will be bringing new information about the Virtues, how to employ them in your personal life and how the benefits can be life altering.

Spring Intensive

St. Germain will be offering an Intensive "Living the Virtues Brings an Elegant and Powerful Life". May 25, 26, 27, 2018. St. Germain will continue the theme for this year of how the Virtues enhance and bring new magick into our daily lives and affairs to enrich our growth and allow us to discover much more about how the inner world and the outer world are blending.

There are many worlds and the Illusion has prevented these worlds from being known to one another. The fear of other people who are different, has simply been expanded to a fear of any and all things that seem different. This has held humanity in a form of stasis which is now beginning to melt away in the Love that is returning to the Earth. Not the conditional love of only caring for or attending to those that we know, but the Love without a condition that allows us to receive great benefits from interdependence with all of humanity.

This Intensive will be held here in the beautiful mountains of central, western Wyoming, not too far from Table Mountain, WY which is one of St. Germain's special places in the world. This area is filled with sacred vortexes and is a wonderful place to feel the magik, both ancient and now. We invite you to join us in this amazing opportunity to remember the magik and rediscover yourself.

This three-day intensive will be \$350. CDs or mp3s will be \$150 for the set.

We invite you to join us in person. Call or email Molly for more information.

CDs and mp3s will be available.

We have a goat farm down the road from us. They bought 49 goats and it would appear that every one of those goats had a kid or two. The babies are just like little kids, trotting along with their mothers, leaping, jumping and it almost looks as though there are big grins on their little faces.

Join us, in 2018, by signing up for the Personal Growth package. This has proven to be one of the most popular offerings that St. Germain has given. People are excited about the changes in their lives and express joyful anticipation for the future. Changes on all levels are bringing a whole new lease on life as we evolve into New Humans. This year St. Germain's Teachings, which are a part of the Personal Growth Package, will focus on how the Virtues can actually help in creating a healthier, happier, richer life.

Rainbow Center News

The May group is "Other Worlds Touching your Own". As the energy shifts on Earth there will be many revelations that can amaze and concern people who have lived in the "black and white" world of logic. The fact that everyone's aura intermingles with each and every person that they pass in a day is nothing new to some people, but to others it can be considered offensive until we forgive old judgments. There are also the magical worlds that are moving into current consciousness and awareness. Fairies, gnomes, trolls,

elves, and all of the earth devas, plus many beings that have been so well hidden for so long that they would seem new. The Masters have always known that these worlds existed, but it is a time of major adjustments on the planet and forgiveness of the desire to dissect anything or anyone that is different must start within self.

The group will be May 13, 2018 at 2 pm MST.

CD's can be purchased on the website at [Click Here for 2018 Groups](#)

St. Germain shares the Teaching "Compassion Enlightens Your Sacred Self". The shifts and changes that are happening in the Universe are directly influencing all that is happening on Earth. The powerful influx of self-awareness can be overwhelming, but it is also bringing many Souls to experience new levels of consciousness within that, in the past, had seemed to be only lovely stories. The experience of changes that cause deeper feelings, greater openness to the Truth that is pouring into human consciousness and a depth of compassion, in the midst of blatant cruelty and cutting words, that the Earth has not known since the beginning of creation. Each one is a Sacred being. The awakening and remembering empower a sense of self that inspires new levels of goodness that heals the heart and brings a clarity that changes the direction of life permanently.

The call-in for the Teaching is on the second Wednesday evening of each month at 7 pm MT.

Our call-ins for the Q&A are on the fourth Wednesday evening each month at 7 pm MST.

The call-ins allow you to join in to hear the teaching and ask questions at the Q&A.

If you haven't had the experience of the Teachings that St. Germain is offering this year they really help us to understand what is going on. It just might be worth your while to check them out. The deep healing power of the Master is there to experience again and again as you listen to the awesome wisdom that he brings. CDs are \$15 for each set—Teachings or Q&A. It is \$25 to call in one time or \$40 for both sessions each month. Postage and handling are separate.

ASTROLOGY

TAURUS NEW MOON - MAY 15

This Taurus New Moon brings revolution to our relationship with the material world. Within hours after the Sun and Moon cojoin, Uranus moves into Taurus for the first time since 1942. The first of the earth signs, Taurus represents our basic survival requirements—food, money, shelter and clothing. Aries brings the fire of new life. Taurus sustains life by the recognition of wise use of what the Earth provides. We were not created to just struggle and survive, but to delight in the beauty and fulness of being human. The abundance of nature supports that beauty in all things.

As we have come further away from the connectedness with all that the Earth has to offer, we have been subjected to the idea that the Earth is here for us to take what we want. The understanding that as we are provided for we are required to replenish has escaped us. Those who live on the land have maintained some measure of understanding of this balance. Those who have little or no direct connection with the land have no clear idea even of where food comes from. Often the mind simply thinks, “I go to the store and buy food. That is where food comes from.” If a child has never seen a cow or been involved in a garden then this logic prevails. There is a necessity for humanity to begin to once more accept the natural world as alive, conscious and intimately connected to us. With the rise of the patriarchy and diminishing of the Goddess, the Divine was taken out of matter. Animals, plants and all of nature became “resources” for human use and abuse. Sexuality and

The paradigms are changing as, suddenly, people are beginning to wake up to the fact that if the planet keeps going as it is being pushed there will not be enough resources left. This is beyond years of discussion to keep “business as usual” going. This requires immediate attention without finger-pointing. This affects everyone. This is not about the “chosen” few. This is not about starving the masses in order to “make room” for the *worthy*. This is a global issue and everyone is important. ***We can no longer say this is not about me.*** We can anticipate an emergence of greater Earth consciousness and new respect of the feminine as Uranus moves into Taurus. From May 15, 2018 to November 6, 2018 we will begin to get previews of how these changes will affect the planet. Beginning in March 2019 Uranus will move through Taurus for seven years. The very day that Uranus entered Aries (March 11, 2011) there was an earthquake and tsunami that caused the Fukushima nuclear disaster.

This time Uranus is entering Taurus right after May 8th which marks a celebration of the Buddha’s birthday and the energy of the Buddha lifting the planet to a higher consciousness. Quite frequently there are global earthquakes and seismic activity around this time of year. The entrance of Uranus into Taurus will bring shakeups in the global financial markets. Disruptors of the financial status are already making their move and are likely to gain more ground: cryptocurrencies, micro-banking, crowdfunding. The return to the earth movement can bring grass roots movements to free humanity from the control of the banking system, and free the Earth from an economy based on extracting and exploiting resources. On a personal level we will be discovering ways that we have held prosperity away from ourselves, energetically. As we reconsider our judgments around money, we can find the old, fixed patterns and forgive them. The views around sexuality are subject to the revolutionary shifts of consciousness. Sex and money are both power games of the Illusion. As we feel deeper into the sacred depths of our own being, the cruel judgments that have become a pastime for both religious and metaphysical people alike will be revealed as the masks to hide behind to distract from personal flaws or personal discount.

The entrance of Uranus into Taurus could be dramatic—first, because it follows so closely the New Moon, and lunations often trigger planetary transits.

Another strong catalyst for volatile energies at the New Moon is a square from Mars at 29 degrees Capricorn to Uranus at 29 degrees Aries. As the ruler of Aries, Mars is the dispositor of Uranus and extra-potent in the sign of its exaltation. Both Mars and Uranus are highly charged and unstable in the last degree of the signs they are leaving. Uranus conjunction with Mercury, planet of trade and commerce, increases the potential for economic disruption.

Mercury in Taurus is in mutual reception to Venus in Gemini, the dispositor of this New Moon. The empowerment of Mercury and Venus supports the higher potential of reawakening our intuition and finding that telepathic communications with both humans and animals become something that is conscious and aware. In fact, as the Goddess energies come to the fore more and more there can be, what could be called, “shocking experiences” that bring everyone into contact with whom we have always been but have been dismissed as crazy or unreal. Venus is out of bounds (May 5 to June 7) traveling outside of the authority of the sun and accenting the Uranian influence of this New Moon. This can bring out the wild unfettered female that refuses to be limited by past perspectives, the pioneering of new territory that has been held inviolate to women by the patriarchy. Venus cojoins Pallas Athene, goddess of war and wisdom, putting new foundations under “Me Too” and empowers the voice of women everywhere to speak gently, but with conviction about who they are.

Aquarius if about equality and Uranus moving into Taurus immediately after the New Moon suggests that the direction of New Moon rituals would be “What would you like Uranus in Taurus to show you over the next seven plus years of its stay. Taurus is about strength and security, both physical and monetary. As the spiritual energies are pouring into the physical world we are called to rest more and nurture our physical bodies. Exercise that includes being in nature, grounding by working in the earth or be directly in touch with it is important. We will be adapting to the chaos in the physical world while integrating higher frequencies into the totality of our lives. This is so powerful that the logical mind cannot find enough ways to prove it isn’t real. Feel the connections between body, mind, emotions and the blending of spirit in the whole.

SAGITTARIUS FULL MOON - MAY 29

This Full Moon in Sagittarius brings an opening to the awareness of greater truth and freedom. Life is the adventure and we are being invited to join in. The Gemini Sun brings new thought, while the Moon in Sagittarius brings new light to our Soul, expanding the wisdom of the sacred understanding that we carry in our physical DNA and in the heart seed that is opening in the hearts of more and more people all of the time. The inner eyes see the potential for a new future that will be unlike anything that the earth has known before.

The Sagittarius Moon is involved in a grand fire trine with Chiron in Aries and North Node in Leo. Fire can burn away illusions and the Truth that is revealed can heal old wounds. The healing gifts that we possess are brought to the fore through faith and trust in ourselves and our own inner guidance. Vulnerability is important for us to accept as we forgive the fear that being vulnerable is a weakness. Exercise opens the physical body, mind and emotions to greater integration.

The Full Moon fire is emphasized by its conjunction with Antares at 9 degrees Sagittarius. This red star sits in the heart of the Scorpio constellation. The association with Mars and Jupiter potentizes the fearlessness and strength to succeed in conflicted situations. The shadow side of this aspect is recklessness and destruction. Sagittarian truth can heal, but the dark side of it can turn to righteousness, blame, judgment and rage.

Jupiter is the ruler of Sagittarius and it is retrograde in Scorpio, bring a fiery temperament to the energies of earth now. This Full Moon emphasizes the necessity to look within and confront our own dark side rather than engaging in finger pointing at others. Heavens are moving humanity into deep, internal places where most have feared to go. We are being confronted with our deepest, darkest fears and old belief systems that have held us locked in doubt and resistance for lifetimes. Questions that keep bringing you back to self are important to consider in this time. Take the moment, in any situation that has a charge on it, to ask yourself “Is this really true or just a rigid opinion?” “Is this worth the energy that is required to fight for this idea or would my energy be better used to create new and positive directions in my life?” “Is my reaction a defense of some ingrained belief from the past that no longer serves me?” “Who would I be and how different would my life be if I could release these old patterns?”

Jupiter's trine to Neptune in Pisces continues to increase our inner awareness and open new pathways of receptivity to the unseen worlds that are becoming more visible to the inner eyes. This encourages the recognition of Spirit's expanded involvement in all areas of our life. Rest and the experience of internal connectiveness are imperative in these changing times. Venus in Cancer brings the focus to feelings instead of emotional reactivity and taking time to get to know who YOU are is vital.

We are experiencing an inward pull with Jupiter retrograde in Scorpio. Mars, co-ruler of Scorpio, enters its own retrograde shadow on May 12. The Mars retrograde (June 26 to August 27) is already beginning to influence our inner climate, calling us to slow down and get a sense of the direction we are going. Is this the path you intended to take or are you just hurtling along, not looking right or left? Mars cojoins the south Node in Aquarius, indicating a sense of loss of power when it is misdirected outwardly toward others rather than used to empower and heal self. It is time to seriously consider, "Does what they think really mean more, than your internal authorship of your own life?"

Saturn, ruler of Capricorn, is at home in its own sign. It is the only one of the traditional rulers in this placement. It is forming a powerful YOD (the finger of God) with the Gemini Sun and Leo North Node. Retrograde Saturn reminds us that our happiness is not dependent on external circumstances. We are the author of our own lives and we determine how we look at life by our own choices. Old habits can cause us to want to shut down our heart in fear and move back into an attempt to control life's affairs which limits our vitality. As we turn our focus to saith, trust and surrender new neuro pathways are opening that change how we respond to life in all of its facets. The Heavens are opening to pour out healing and upliftment upon the whole of humanity. It is up to each individual to embrace their Mastery and live who they truly are, in LOVE.

QUOTES FOR THE MONTH from St. Germain

Our commitment to you is "Forever and a day." Our love for you is even more. We wait for you, an eternal friend, standing at your side, loving you. – Lazaris

We have watched and waited for this time in human evolution. We have hoped and dreamed the possibilities until they are unlimited. We open our hearts and arms in the greatest of love. All that is asked of you is to step into the love. – St. Germain

Everything is changing. Nothing can remain the same. The world may seem to be as it has always been, but the New World is moving into place. Trust what you feel within, for nothing is functioning as it once did. There is so much LOVE. – St. Germain

Seek the Masterpiece in all things. Discover the wonder of what has always been there. Allow Spirit to take you to the most wonderful place of all—the connection to the Divine within you. – St. Germain

ST. GERMAIN'S MESSAGE

Dearly Beloved Masters, the contrasts on the planets are emphasizing, more and more, the schism that has formed between the factions of ideas and opinions and those who are feeling the changes within themselves that bring a greater awareness. Spirit is entering into the realms of physicality and bringing the New Earth into manifestation, changing deeply the lives of the Children of Mother Earth.

We see, in all of the perspectives, important points that would benefit all. We also witness how the refusal to see anything, but one's own point of view, can create such limitations that life gets stuck and stasis sets in. When one person or one idea is held as the standard for all people, the restrictions cause rebellion. Each person is a wondrous being with so much creative potential that they are like a dynamo of resources. Why, you might ask, do we not see ourselves as what you tell us we are? We are looking through unfiltered eyes. We see, not only with the vision of the physical world, but with the clarity of Spirit. We see who you were created to become from the beginning of physicality.

The linear mind thinks that oneness must mean that everyone does, thinks, acts and believes just as everyone else. You have a physical body composed of trillions of cells. Each cell is slightly different and functions in a way that helps to bring about and keep a healthy balance in all of the systems of body, mind and emotions. If every cell was exactly like all of the others you would be more like an amoeba. Each Soul is beautiful in its own unique way. Each body has its own unique dynamics. Each mind can, potentially, be a contributing factor to the Divine Plan, and no one has the whole picture or idea by themselves. To look at the lights of the Souls of Earth is very much like looking out into night sky and witnessing stars, planets, and galaxies, the beauty of everything, not separate from anything else, moving together in Sacred Oneness.

Because All are One, the energy of creation flows into each life consistently. Some welcome it, some fear it, some deny it, some disdain it and many are simply not tuned in to the frequency of life to the measure that is required to recognize what energy brings to the life force. Fear and anger prevent the magick of Love's indwelling from being integrated. People are beginning to have progressively more experiences that the logical mind cannot explain. When the EGO mind encounters something that it does not understand it dismisses it or sets it aside as unimportant. However, there is an intrigue in the unknown and unexplainable and these experiences capture the attention because there is the magnetic attraction of the unknown that has always drawn the imagination to want to explore. As the Love pours in, as the creative potential becomes clearer and the discount of human value, that the Illusion devised, breaks apart, humanity is recalling the power with which they were invested in the original creation. Insidiously, the "Game of Separation" has slowly indoctrinated the human psyche with doubt, fear and smallness until many believe that they are

here just to do what they are told and not ask questions or make waves. "If you want to belong you will not demonstrate your worth, magnificence, uniqueness or Truth". Yet, if you must give up who you really are to belong there will never be the comfort of acceptance. As Revelation is pulling away the facades of what has been, a deep awareness is dawning within the collective that is causing people to ask, "Is this, really, all that there is?" Unlike the past, now there is a response within, that affirms "There is so much MORE! YOU are so much MORE!" It is time to "RISE UP" and break through the veils of doubt and limitation. It *cannot be done in the old ways!!* If it could it would have been manifested long before now, but TIMING IS EVERYTHING. Your time awaits you, but you cannot force it to happen when you think it should. Faith and Surrender open the internal gates to your Spiritual Path within. You may only open the way Within by allowing yourself to change.

There is, for many, a feeling that there is something that must be done or changes that must happen, but the EGO says, "They must change, not you."

ALL CHANGE BEGINS WITHIN!! ALL CHANGE, EVERY BIT OF IT, BEGINS WITH INTERNAL CONSIDERATION OF NEW WAYS AND DIFFERENT DIRECTIONS.

Others may not agree with your vision, but they are not required to live your life. As long as there is a consciousness of "Doing no harm, to self or others, your dreams and visions deserve to manifest. That manifestation comes from changing how you feel within. Opening to greater good, releasing affirmations of lack and limit, considering how much you trust that you can have the life you desire and understanding that you cannot get what YOU desire by stealing it away from others—mentally, physically or emotionally. Get back, pay back or revenge all have serious consequences that are unavoidable. You might steal someone's money and then have someone "steal" your lover. The EGO doesn't see that as balance because the EGO expects things to be exact. If you wish hard times on others, they will come, also, to you, but the balance will be where the imbalances are in your life. I keep emphasizing that KARMA is not punishment, but balance. It actually is a healer in the greater scheme of things. The children of Earth have become so distant from how Divine Law serves that they believe that if they are very careful *not to get caught*, no one will know what they have perpetrated. GOD within and GOD without always know what each and every part of creation is about. The EGO

has used guilt and shame to control life on Earth by exercising punishment and abuse and saying that God exacted that. God is NOT a punisher. GOD created, originally, and continues to create in unconditional LOVE.

There would be no reason for Spirit to use cruelty as a measure to gain control, for control is not a consideration of GOD's MIND. The Divine did not instill right and wrong into the affairs of the Earth. God invested every Soul with the clarity and integrity that allows creation in LOVE rather than in the abuse of LOVE and MAGICK. MAGICK brings a power and sweetness to life that has been missing for eons. When Love or Magick are abused the result is too much darkness to maintain the balance of Divine creativity. The mind thinks it is accomplishing something that will bring dominance, But the imbalances, especially in the energy shifts of the entry of the Aquarian Age, are denying the positive outcomes. One person getting his or her way and then attempting to convince everyone that that way is the best for all, is not nearly as believable as it once was. The Illusion once made the choices of rulers and tyrants acceptable because humans, for the most part, were not allowed to make their own choices. Dictators are becoming less acceptable and more obvious all of the time. There are still many people who will defend the dictators in the hopes that those in "high places" will notice that they are getting support. Everyone gets to realize that what you support and what you focus upon, becomes the foundations of your life. It is like living on tiptoe, in the hopes that someone else will give you stability. **NO ONE CAN GIVE YOU A BETTER FOUNDATION THAN YOU ARE WILLING TO ALLOW FOR YOURSELF.** If you think that your life depends on someone else you are causing your own support system to fail. You are required to be there for you. No matter how much you want, you will receive no more than you are willing to allow. The EGO can shout loudly that it really does want a good life, wealth, love and joy and then it begins the reminders of the price you must pay for good and that other people still have more than you do. Forgive looking into the unformed future, believing that you can find what you want there and drag it back to now. The unformed future remains unformed and NOW is the only place that you can live. As you dare to realize that everything that you desire or require is right here, right NOW, you begin to keep your energy with you rather than sending it away. You can dream, create and then invite those dreams and creations to manifest here and NOW. FAITH and TRUST open your inner eyes so that you see things that have always been right in front of you,

but you were looking for your good somewhere else. PATIENCE is the inner knowing that GOD hears every prayer. You are a cocreator with GOD on Earth. GOD is not a stingy father who controls the purse strings and only gives to the children who "play the game his way". GOD is the essence of ALLNESS. Let yourself be LOVED, rather than fighting for it. Allow yourself to succeed rather than letting the EGO dictate the limits of how much you can accomplish. Humanity is only limited by their own limitations. The belief that others are stronger, better or worthier has been the veil of deception for lifetimes.

Even the planets in the heavens are bring the message of new life and revelation is opening places within everyone that will support Oneness and interdependence for all who are willing to make the changes. Logic suggests that "if it isn't broken, don't fix it". That requires that you not examine what is going on in your life from the inside out, so that you may recognize, if you feel as though life is passing you by, it is because you have stepped out of the flow. Separation supported being an observer of life, because it was safer. Missing out on life because you are afraid, doesn't bring you the life you wee created to live.

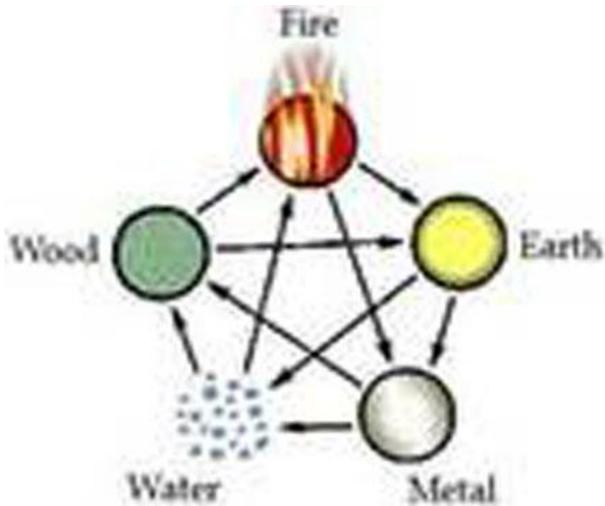

The Virtues are THE MASTERS TOOL BOX. The life that you live is the surface upon which you build what you dream. Each Virtue gives new potential and new perspective. This is an expanding world. The planet may seem small, but each one of you is energetically larger than the earth. LIVE outside of the box of old restrictions. Living large does not encourage ill behavior. The Magick of creation was designed to operate on divinely appropriate intension. Stay in touch with the desires of your heart. When your heart feels full of love your designs are on the path of your highest intensions.

Feel the energies of what you are calling into your life. Make sure that you allow the same wonderful opportunities for others that you would call to yourself. Rejoice in the goodness of all, rather than let envy or avarice to deny you because you let greed interfere with recognizing that the goodness belongs to all and no one possess the right to decide what GOD would do.

In the greatest of LOVE We are with you. Our desires are that all will remember the Truth of Divine understanding that is beyond the comprehension of humanity. As you move forward and grow may blessings fill every measure of your lives. I bid you Fare Well I AM the Lord St. Germain
