## Rainbow Center News

### Fall Intensive

Our Fall Intensive is "Discover how to find the New Human within You". As the Revelation is moving quicker, we are all experiencing changes that both amazing and disturb us. St. Germain defines the

direction that this evolution is taking us and how it is redirecting the way that the planet has functioned for lifetimes. Every aspect of life on the planet is being touched by these changes. No one can sit by and *think* about whether they will change. If we are on the planet we have agreed to make the shifts or be shifted.

The chaos of the times is a manifestation of the EGO minds confusion. When there is confusion around any situation it simply means that we are trying too hard to make something happen or trying to figure things out from a logical point of view, rather than allowing our intuition and spiritual flow to guide the process. St. Germain brings clarity and understanding to help us move through these changes with peace and ease.

The Intensive will be held here in the beautiful foothills of the Wind River Mountains on November 9, 10 and 11. The cost is \$350 for the three-day event. We would love to have you join us and experience the amazing energy of St. Germain in the powerful essence of the Lander Valley.

For information on accommodations, travel and other things of importance call or email Molly at 307 335-8113 or mollyrowland22@gmail.com.

CDs and mp3s will be available.

The June group is “Quantum Realizations Expand the Finite Mind to New Sight”. There have been beliefs instilled over time that most of humanity is incapable of profound thought. The emphasis on the intellect and yet the denial of information to all has stopped many a great mind from developing to its fullest potential. Some much of what is occurring in humankind is very subtle and yet infinitely beyond what was accepted possible. St. Germain says, “Beloved, Masters, “Astound yourself by allowing rather than doing”. Feel, **feel**, **FEEL**” Notice the amazing changes that occur when you stop trying to do things and open yourself to the connectiveness of allowing.

CD’s can be purchased on the website at

The Group will be held Sunday, June 17, 2018.

St. Germain continues addressing the Virtues this month by discussing “Clear Vision Can Change Your World”. What we see out side of ourselves is merely a

reflection of what we are thinking and holding on to within. As we see beyond the limits of old teachings the World outside mirrors the shifts that we are creating within. As St. Germain continues to discuss the power of the Virtues in our daily life, he is not only speaking of vibrational changes, but how they affect everything on Earth. We are dynamic Divine Creators. Remove the filters that have denied the ability to see the TRUTH and what is revealed for you is awesome.

The call-in for the Teaching is on the second Wednesday evening of each month at 7 pm MT.

Our call-ins for the Q&A are on the fourth Wednesday evening each month at 7 pm MST.

The call-ins allow you to join in to hear the teaching and ask questions at the Q&A.

If you haven’t had the experience of the Teachings that St. Germain is offering this year they really help us to understand what is going on. It just might be worth your while to check them out. The deep healing power of the Master is there to experience again and again as you listen to the awesome wisdom that he brings. CDs are \$15 for each set—Teachings or Q&A. It is \$25 to call in one time or \$40 for both sessions each month. Postage and handling are separate.

## ASTROLOGY

### GEMINI NEW MOON – June 13

The Gemini New Moon brings the airy qualities of the first air sign into our lives now. The dark Moon reminds us that all changes begin within. After new concepts are considered and developed within, the opportunity for manifestation in the World comes forth in the light of the Full Moon. Gemini possesses the ability to see things from many different angles. The drawback can be getting so ensnared in possibilities that no choices are made. We may find ourselves caught up in old mental tapes and the power of this New Moon is to help us rewrite the script so that we get out of the old loop of stagnation.

Mercury, the ruler of Gemini, is bringing in a balance of the watery sign of Cancer, offering emotions or even greater, feelings, to help the internal connection remain strong. The mutual reception of Mercury,

ruler of Gemini, in Cancer and the Moon, ruler of Cancer, in Gemini opens the way for a deeper realization of inner-personal recognition. We are encouraged to listen to the subtle voice of our intuition and feel the tone behind the words, rather than to just hear the context of the words spoken. Since the emotional climate can run to hypersensitivity, communicating with compassion and patience can make everything flow much smoother. Old wounds can be healed by understanding.

Adding to the reactionary atmosphere, Mercury is in a tight square with Chiron in Aries (2 degrees) and opposing Saturn in Capricorn (6 degrees). When the emotions are looking for conflict we are required to be aware of what we say and how we say things. It is not only the words spoken, but the tone with which they are said that can trigger old memories of wounds passed and bring over reaction that, often, has nothing to do with the moment. However, the petulant EGO child can take offense about most anything. Fighting over who did what, simply takes the energy out of the moment and nothing is accomplished. The opportunity to find center and stand with self, *rather than standing up for self*, which is defensive move, brings a clearly transparent chance to feel things differently. It isn't about aggression or running and hiding, both old reactions, but whole new levels of self-discovery to explore.

Mercury's opposition to Saturn, exact on June 15, can bring us to the place where we are required to make important decisions or take committed actions that we have been delaying. With Mercury in Cancer these decisions can be based on family issues, personal relationships, home or real estate. This opposition to Saturn can bring a grounding effect or assist in thinking realistically, but it can also result in negative thinking, cynicism or judgment. Part of the clarity can bring us to be aware of the mind chatter that goes on in our head and how that can undermine rather than support us in these changing times.

Mercury is "out-of-bounds" June 6-24, traveling beyond the normal range of declination. Out-of-bounds Mercury can support us in stepping outside of the box and allowing our mind to stretch beyond what we might call normal. This can aid us to consider unconventional ideas and expand beyond the old places where we may stop and go no further. With out-of-bounds Mercury as the dispositor of this New Moon, we could feel extra "lucky" and have a sense of expanded ability to communicate and experience deeper connections within. The synchronistic energies can support opportunities that present unexpected

gifts as Mercury sextiles Uranus at (1 degree) Taurus. Synchronicity is a natural outcome of open-minded thought. It can trigger connections with others on many different levels. The cooperation between Mercury and its higher octave, Uranus can produce exciting and stimulating conversations that are beneficial to all concerned.

The New Moon generally supports forward motion and involvement in new projects or life decisions. The number of retrograde planets at this New Moon advises otherwise. Jupiter, Saturn and Pluto are all retrograde, soon to be joined by Mars on June 26. This New Moon appears to be more about discerning what is real and true in our lives at this time. It is a time to heal with the past and pay attention to where we would be well served to change the stories that we are telling and make sure that the things we keep affirming are what we want in our lives now, rather than shadows of the past. As we clarify how we are creating currently when the time comes to make forward movement we will be in alignment with our choices.

## CAPRICORN FULL MOON – June 27-28

Each Full Moon indicates a building process. Things that have been set in motion in the past are being brought to fruition and new events and opportunities are emerging from what has been created thus far. This Full Moon in Capricorn occurs at a time of particularly dramatic change as Capricorn is the sign of completion and consequences. The Moon closely conjoins Saturn, the Sea-Goat's ruler, also known as the Lord of Karma. The emotional tone of this lunation is more sobering than celebratory. It can help us to clarify our priorities and regain the balance that is required to move forward steadily.

Karma is the Divine Law of Balance. It brings things back toward center when life takes unexpected turns. As the Full Moon culminates conjunct Saturn, things that have been left unattended or operating in the background can snap to crystal clarity, pointing to the seeds that we have been, unconsciously, sowing. If we are discovering that we are not comfortable with where our life is going, this Full Moon can assist us to redefine the direction we have been taking and set a new course. No matter how set in our ways we have been, the current energies of Revelation are pulling us up and out of the rut and motivating us to accomplish what we are here for.

Capricorn is the sign of responsibility and this Full Moon reveals where we have been avoiding aspects of our lives. We are required to forgive procrastination and get moving with what we desire to accomplish. We may also discover the important life lesson about how valuable it is to learn to say “NO” appropriately. This Full Moon can point out the places where we have overloaded ourselves and the reasons we must let go of too much responsibility. We will also be called to own our feelings. As a people, on the planet, we have been programmed to fear intimacy. The fear of Love, deep heart felt Love, has prevented the fulfillment of all that we can be. Begin to really consider giving up drama and finding the peace that awaits us within when the focus is no longer on war of some kind. Drama generates fear and keeps the fires of war burning emotionally. The more centered and clear we are the more capable we are of living safely in the awareness of who we are and all that we can have as we surrender the need to keep life at a distance.

Chiron, in Aries, is creating a challenging square with the Sun in Cancer, the Moon and Saturn in Capricorn, which can bring up old wounds around self-confidence, personal power, courage and recognizing the difference between the strength to stand with our convictions and tyranny. Mars, retrograde in Aquarius, can stir old anger that has not been dealt with. The right to conflict is doing more harm than good, as people think that abusive, demeaning and cruel language and actions are going to change things for the better. If that were going to happen, the healing would have occurred long ago. The unfiltered rage is expressing out everywhere and many, who are emotionally fragile, are reacting to the accumulation of pain that they are and have been experiencing. The realization that those who give their power away to gain approval are always going to feel as though they cannot be loved for who they really are, requires personal attention. Telling others what one needs, but disallowing the changes that bring about different outcomes, just continues old, repetitive patterns to continue. Chiron, the Wounded Healer, is making a supportive trine to Mercury in late Cancer and the North Node in Leo that allows us to stop attempting to hide our wounds and be who we truly are in love and compassion.

Saturn in retrograde, as dispositor of the Full Moon, indicates a time of restructuring. We are required to consider the balance between our inner emotional life and what we are manifesting in the world (the Cancer/Capricorn axis) and how imbalances in this axis can diminish our self-worth and ability to prosper in the physical world. It is time to ask ourselves “Am I

so involved in the lives of others that I have excluded myself from this life I came to live?” “Have I gotten so absorbed in my work that I have neglected my family, intimacy, home and personal awareness of who I am becoming?” Finding balance in the midst of the chaos of a world that is not just changing, but transforming, brings new recognition of all that we are becoming. A trine from the Moon and Saturn in Capricorn to Uranus in Taurus can help us to break free from the confinement of the past and find where we are not aligned with our own deepest desires.

As we stand at the gateway to tomorrow, we will receive visions and revelations that invite us to step out on Faith, to connect with that yet unknown future, to realize that we have everything that is necessary to achieve MORE!

## ST. GERMAIN'S MESSAGE

The World is changing!!! There may be laughter as I make this profoundly amazing statement. Some may say it isn't changing at all, some may say it isn't changing enough, others may question where these changes are going in reference to their own view of what is *right*. We witness the moment by moment dynamics of shift that, as it influences one person or group or city or state or country it influences the whole.

On May 15, the planet Uranus moved into the sign of Taurus for the next seven years. This is the first time that Uranus has been in Taurus since 1942. Taurus is the first of the earth signs and it increases and encourages the energy of the Divine Feminine to move into balance with the essence of masculine energy that has dominated the planet during the patriarchal rule. The entrance of the Aquarian Age calls for balance and harmony. Left-brain consciousness has caused humanity to look away from the natural forces of life on Earth. Fighting to achieve has created a belief that only intellectual manifestations have value. The arts have been dismissed by science as unnecessary distractions. Women have been discounted blatantly as second-class citizens or less. War gets billions of dollars of funding, while education, wellbeing and human kindness are tabled as expenses that are "fat to be trimmed from the budget" of government.

Uranus is evolutionary revolution and it changes through chaos. The more that the mind dismissed the connection of all things to the One, the more the Earth Mother is attempting to restore balance within herself. The intellect has believed that it knows better what is required for balance than nature does. What the logical mind does not even want to consider is, each person is a part of the whole. Power struggles are always about one person or group "winning" at the expense of others. The EGO mind simply shrugs and says, "That's just how it is". Divine Law keeps balance energetically because if things in the Cosmos begin to just go in any direction and heavenly bodies decide that they do not have to keep moving in order the chaos would be disastrous for all of creation.

The old paradigms, old beliefs, old ways of solving problems are like a matrix of stone that has resisted the changes that would liberate humanity to look at themselves, the world and all of lives wonders differently. The chaos of Uranus is already breaking up stuck energy and releasing those limits so that there is plenty of room for people to move and grow and make the necessary changes for the evolution into New Humans. If there is an earthquake or volcanic activity in one part of the world those that are not immediately affected may say "It had nothing to do with me". The realizations must now be brought to consciousness that if anyone, anywhere is uprooted, forced to change in any way, the whole planet is going to respond even if logic dismisses this as illusive. This matrix of resistance must break apart in order for the necessary changes that humankind requires to come about, mostly within self.

Because Taurus is associated with money, finances, and security Uranus will set in motion shifts and changes that will reveal just how illusive and unstable the old ways of business and money truly are. Divine Law brings to light the fact that amassing and hoarding are a denial of the truth of the Universal Law of plenty. These limited concepts come from a lack of faith and the EGOs constant reminder of not enough and what you might lose, rather than the potential gains that life can bring. If your attention is constantly directed to the limiting factors of life and you are repeatedly told that there is short supply of necessary things, so that if you have sufficient money and goods in your life you are really depriving someone else, then that feeds the fear that someone else might get ahead and you will suffer. The subtext of this programing is a warrior consciousness that has everyone ready to fight to *keep what is theirs*.

As the old patterns are dismantled, the **walls** of illusion fall and what has been hidden for so long is exposed. Each person will be required to recognize that they are important, valid and valuable. The crushing accusations of **NOT GOOD ENOUGH** will be shown up for just how destructive they have always been and how the judgments against others bring as much or more pain to the accuser as they do to the accused. *Criminal Justice* must of necessity be reevaluated and all people are required to learn from within the true ways of recognizing how to be with inappropriate behavior, which more often than not is a plea for attention. The wounds and anger of being told, "You are not good enough" turns to boiling, festering rage that turns against all of society. The tendency to turn away from things that seem insurmountable will, of necessity be dealt with in compassion rather than brute force. **GIVE AN ANGRY, DESTRUCTIVE MAN A BADGE AND HE CAN LEGALLY DO WHAT THOSE WHOM HE IS PURSUING WILL BE PUNISHED FOR.** The mind has made rules and laws that rigidly control human action. Spirit does not use right and wrong and the judgments thereof to ascertain truth. Spirit can see/feel the reality of the heart and hear/feel the nuances of the voice and countenance of one who is twisting the truth. The fear of being revealed has, over time created all manner of distortion of truth and reality, so that now, people do not remember how to discern energetically, how to get to the clarity of a situation. Because the rules and regulations of the intellect have become so convoluted, the mind can, deceptively, make dark appear to be day and wrong to be right, just by creating enough confusion to blind the populace who has been programed no to pay attention.

Revelation is bringing to all of humankind the ability to recognize personal Mastery. It is no about someone else telling you that they are a master and you must believe them and follow them, but for you personally to move aside the obstructions of programs of Illusion and **FEEL** the reality of who you are. It is not about asking others, "Am I a Master?" It is about being willing to bring your energy home to self and feel, *feel*, **FEEL** beyond the limits of mental distancing, who you are. The difference between the **EGO** attempting to convince others that it is better and you discovering a deep recognition of all that you are about, is the energy of internal awareness. Your **TRUTH** is working. When someone tells you that they are superior, it hurts, it feels false, it brings up a desire to confront them. Rather than confronting them this is an inner alert to get with yourself and own you own qualities of strength, goodness, loving and

accomplishment. If you feel that you are lacking, where and why are you stopping your own growth and Masterful awareness. **ASCENSION IS NO A COMPETITION.** Allow the emergence of the Goddess to assist in finding inner balance. Let the Divine be a part of your daily life. Forgive that God has been held at a distance because of the belittling of others. You are and always have been worthy. Uranus will begin to overturn the oppression of old ways.

The movement of the planets, the assistance of the Masters, the potential for new growth is not something that is handed out to be abused. The internal changes of the willing are obvious to those who are not being filtered by the games of Illusion. **YOU ARE ALL MASTERS.** What you choose to make of the potential is a Masters choice. Abuse of power is one of the biggest down falls humanity must meet as Uranus, evolutionary revolution, moves through the last vestiges of the time of learning how to be human. The focus on the physical in exclusion to the Divine is fulfilled and it is time for the next level of becoming.

The secret of relationship, sexuality and human emotion will be brought to light so that everyone may examine, within themselves, what requires to be shifted and changed. Manipulation, control and abuse will be brought into the spotlight of Revelation so that those who would perpetrate crimes of violence against others will be brought to confront themselves and consider how a new balance would be brought into being. All of humanity will be asked to consider different ways of healing the wounds of separation and creating new and more personal ways of dealing with the desires to undermine the love, life and security of the whole. **"THEY ARE NOT MY PROBLEM" WILL BE REVEALED AS A FALICY.** Beloved Masters, the question is no longer "What do we do about this, but how may I change my point of view to assist all of the planet to improve?"

When we talk about change so many people are enthusiastic and say that they are ready. What we see is that most of these are still willing for others to change as long as they do not have to. The changes are happening **NOW!** The dynamics of the Divine do not need a personal pole to see if someone is ready. If their presence is on the planet then they are ready. **IT IS NOT WHAT LIFE BRINGS YOU, BUT HOW YOU PERSONALLY RESPOND TO THOSE CHANGES.** Trying to stop change is no longer a viable choice. The necessity to blend with Spiritual Essence is an internal affair. The Courage to adapt to the changes is much more powerful than fighting against them. The more the clarity of personal

wholeness reveals just how distorted the mental realm can be when it is not balanced in Love and beauty, the more there is the dawning of just how vital the changes that are occurring are and will continue to be.

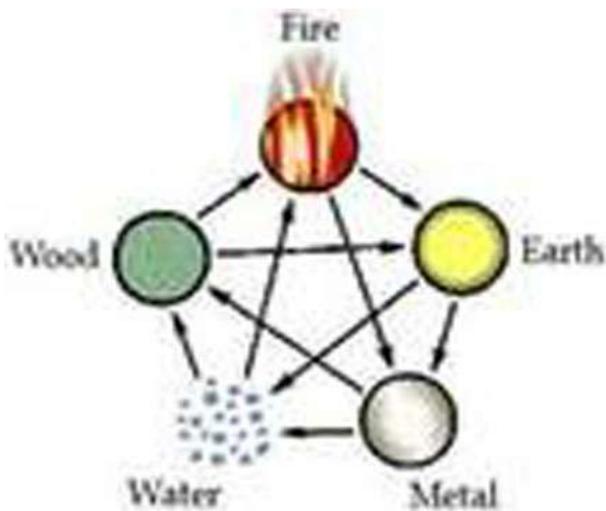

When there is a deeper awareness of how to hear and see in connection with the Soul Self, the discoveries of the many wonders, treasures and gifts that exist within are found. Learning how to employ these new/ancient discoveries brings a fuller acceptance of how valuable each person on Earth is.

The desire to remain the same and continue to complain about how others are doing things, is crumbling around the edges. EVERYONE must take a part, not to point out flaws, but to develop a greater consciousness of how personal growth makes all the difference in the world.

So, Beloved Masters, We love the whole without condition. We cannot tell you what to DO or how to live your lives. You have been told these things for EONS. The wisdom is within you. We trust that you will reach within and find the wealth of amazing Grace that lives inside. Personal power requires no dominance. When you feel the power, it sustains the growth. Until We meet again in what ever manner that may be, you are Loved Always. I AM the Lord St. Germain
