THE PATHWAY TO PERSONAL GROWTH LEADS INWARD is the title for the 2019 Personal growth series.

St. Germain will be demonstrating the way to reach your own Divine Self in the Sacred Center within. Feel the energy of the Master as He speaks directly to you through His message. St. Germain asks for a commitment of six months, to yourself, in order to begin the journey of wonder that finding yourself brings. It takes at least six months to reframe your focus so that you can hear the quiet wisdom that Spirit offers. Learning to council with your Soul self rather than asking the “Who, what, why, where and how” questions that the logical mind uses to distract from a bigger picture of what life has to offer.

By signing up for the Personal Growth package, you make a commitment to self to rediscover what has been hidden or set aside for life times. This has proven to be one of the most popular offerings that St. Germain has given. People are excited about the changes in their lives and express joyful anticipation for the future. Changes on all levels are bringing a whole new lease on life as we evolve into New Humans. This year St. Germain’s Teachings, which

are a part of the Personal Growth Package, have been focused on how the Virtues can actually help in creating a healthier, happier, richer life.

We do not get a long fall season, but it is beautiful while it lasts.

Fall Intensive

Our Fall Intensive is “Discover How to Find the New Human within You”. As the Revelation is moving quicker, we are all experiencing changes that both amazing and disturb us. St. Germain defines the direction that this evolution is taking us and how it is redirecting the way that the planet has functioned for lifetimes. Every aspect of life on the planet is being touched by these changes. No one can sit by and *think* about whether they will change. If we are on the planet we have agreed to make the shifts or be shifted.

The chaos of the times is a manifestation of the EGO minds confusion. When there is confusion around any situation it simply means that we are trying too hard to make something happen or trying to figure things out from a logical point of view, rather than allowing our intuition and spiritual flow to guide the process. St. Germain brings clarity and understanding

to help us move through these changes with peace and ease.

The Intensive will be held here in the beautiful foothills of the Wind River Mountains on November 9, 10 and 11. The cost is \$350 for the three-day event. We would love to have you join us and experience the amazing energy of St. Germain in the powerful essence of the Lander Valley.

For information on accommodations, travel and other things of importance call or email Molly at 307 335-8113 or mollyrowland22@gmail.com.

We invite you to join us in person. Call or email Molly for more information.

CDs and mp3s will be available.

The November group is “The Wisdom of the Ages: Mysteries Revealed”. People dig through old papers, books and scrolls seeking to find the Ancient Mysteries. They read old languages and attempt to interpret the messages according to modern thought, often inserting personal opinion when things are not clear. As the Awakening occurs within humanity, there is a resurgence of those turning to religion in the hopes that the answers can be found through the interpretation of the church. Each being is blessed with intuition and the ability to discern from within the truth that has been present, energetically since the beginning. The mysteries have been veiled by fear and misinterpretation, so that there is a certain amount of dread in getting the answers clearly and truly. St. Germain assists us to feel the power of the mysteries within ourselves.

Our Virtue for November is “The Amazing Power of the Ethical Self”. Personal Growth is about embracing the Power of Self. This power is not found out in the world, but within the Sacred Center of Self. Ethics and integrity are necessary elements to have a happy and

fulfilling life. Without these energies, life becomes a fear-based war zone, filled with uncertainty. Personal ethics allow you to be well with yourself, no matter what is going on outside of you. Your ethics are like a key in a lock to deeper resonance of character and self-value. When the inner foundation is corrupt the wisdom to make wise, honest choices is hidden or disempowered to the point that any choice made is questionable. The logical mind dwells on “How to get what I want right now”. It encourages quick thinking and hasty decisions. The power of personal ethics mends and heals the coalition of Self and self so that the process of making choices becomes progressively clearer and easier.

The call-in for the Teaching is on the second Wednesday evening of each month at 7 pm MT.

Our call-ins for the Q&A are on the fourth Wednesday evening each month at 7 pm MST.

The call-ins allow you to join in to hear the teaching and ask questions at the Q&A.

If you haven't had the experience of the Teachings that St. Germain is offering this year they really help us to understand what is going on. It just might be worth your while to check them out. The deep healing power of the Master is there to experience again and again as you listen to the awesome wisdom that he brings. CDs are \$15 for each set—Teachings or Q&A. It is \$25 to call in one time or \$40 for both sessions each month. Postage and handling are separate.

ASTROLOGY

NEW MOON in SCORPIO - NOVEMBER 7

This New Moon focuses on the deepest aspects of self. It can be the cauldron of Plutonian magma or the deep, cool waters of Gautama Buddha that hold the Eternal Wisdom within. The planets that dispose the Sun and Moon are Pluto and Mars, that represent the Way of the Peaceful Warrior and the conflicted, wounded warrior. The Sun and Moon are trine Neptune in Pisces which brings the power of the intuitive nature a stability to hear the inner messages without wanting to fight over whether the message is right or wrong.

Venus, that was the depositor of last months New Moon, has retrograded back into Libra, the sign that it rules. This can delay the outcome of projects that require group involvement and agreement, because of outside distractions that prevent everyone involved from coming together to make decisions. The necessity to be willing to move on and let old limits and obstacles be done is vital now. If there is something that has not been cleared from the past, it can block the movement that would allow new beginnings or valuable movement in current situations.

The Scorpio New Moon homes in on traditional themes such as deeper experience of emotions, both positive and negative. The deeper we access our inner self the easier it is to raise the frequency of emotions to feelings which allow us to see/feel in a clearer way what may have been overlooked by the desire to move through challenges quickly, rather than thoroughly. As life seems to be on a roller coaster, consider attempting to keep moving your LOWS to where your HIGHS were. Visualize your emotions moving like a spiral, so that what was your lowest point yesterday is lifted to now be where yesterdays high point was, so that you are consistently, each day coming up over the limits of the day before. It will begin to feel, almost as though things are level, yet your gaining new, energetic frequency all of the time.

Pluto, the modern ruler of Scorpio, is sextile this New Moon, which amps our ability to succeed in place where we have felt restricted. Pluto is pure power, so how we use its essence requires attention. We may feel as though others are attempting to overpower us, but fighting back can create a chaotic crisis. Pluto is either/or so there is no middle ground. There is either the HIGH road or the LOW road, so there is the necessity to consider carefully. This is not the time to dwell on past injustices or the need to prove personal worth. What was can pass away if it isn't tethered in now.

Pluto is tightly conjoined to Vesta, letting go of old issues may seem as though the issue is too important to release. Persistence and stubbornness have different energies, so feel into how the situation is being approached. Stubbornness is a refusal to change even if things are showing that change is the only way forward. Persistence is holding a space for change to occur in the divinely appropriate timing, without conflict. Plutonian energy can help to transform a situation that has not been ideal or satisfactory.

Saturn can be a friend if patience is applied. The aspects of this New Moon suggest that what we have

been waiting for can come to pass, as we are willing to allow the timing to be in our favor. This cannot be achieved by control or aggression.

Jupiter is the planet that brings greater accessibility to our higher self. This New Moon is in a wide-angle conjunction with Jupiter. Even though Jupiter is in its detriment in Scorpio it can still support our internal journey. The deeper we go within, the broader our awareness how high we are moving becomes.

These are times of finding self and being aware of who and what we are creating. The year is moving toward the time of sacred silence, as we near the winter solstice and the time when nature turns within to rest. It would be a great wisdom for those who think that they do not have time to be still, to give being still an opportunity. It is like a vacation without all of the expenses and much easier to access.

FULL MOON in GEMINI - NOVEMBER 22-23

This November Full Moon occurs in the first degree of Gemini. When a house cusp or degree of a planet falls in the first two degrees of a sign, there is an indication that there is a new karmic lesson being entered into. The last two degrees of a sign indicate that a lesson is coming to a conclusion. The opportunities for new discoveries around communication, travel and relating to those who are involved different ideas, philosophies and ideologies that ourselves can be an open door to higher consciousness and deeper understanding.

The Gemini Moon opposes Jupiter which is closely conjunct the Sun in Sagittarius. Jupiter has entered its sign of rulership and this can cause imbalances. When the Archer is aiming for a rainbow, there is a distinct possibility that he isn't paying attention to what is happening on the ground in front of him.

Gemini keeps an ear on what is going on locally, while Sagittarius focuses on a broader and higher perspective, but if one outweighs the other there can be complications. Since our president is a Gemini with a Sagittarian Moon the potential at this time could be that there is too much focus on what is going on globally and not enough on the local scene.

A Full Moon can certainly give the feeling that life is overwhelmingly full. There may be a necessity to slow down or rest for a time in order to gain perspective. This Full Moon conjunct Jupiter is no in a t-square

with Mars that has moved into Pisces. This could have the effect of a floating battleship that could cause conflict just because of appearances. People are not paying much attention to what is really happening and therefore, assumptions can lead to an ideological war with no foundation in reality. Mars sits at the top of the t-square and sextiles Saturn in Capricorn which can, if nothing else, catch the attention before there is outright conflict or collision. Jupiter's aspect to Mars could find that are declarations of war without considerations of the outcome. If someone throws down the gauntlet it would be best to ignore the challenge. Mercury disposes the Moon in Gemini and is conjunct Jupiter. This creates a theme of exaggeration and other inaccuracies. Oversights might be unintentional, but the outcomes could be costly. Since both Mercury and Jupiter relate to communication, it is a wise idea to be a bit cautious when reading, listening to or transmitting information. We cannot control what other people do with information, but we can do our best to be as clear and concise as possible when sharing information.

Both Mercury and Jupiter form a sextile with Pallas Athena in Libra which calls for consideration of a balance between ambition and ethics. Pay attention to how things feel, rather than just what seems to be said. We can hear words without listening to what is really being said.

In the time after the elections it will be truly important to focus on where things can go, rather than war over trivialities. All people are important and there is no one who can be dismissed as unnecessary. Look for the rainbows and keep you feet on the ground.

QUOTES FOR THE MONTH from St. Germain

The mentalist speaks from logic and reacts. The Magickian feels the power of the Divine within, hears the Eternal Wisdom, then acts accordingly.

As the energy builds and the frequencies are so much higher, it is to remember that the Earth has been operating in the density of Illusion so the waves

of Love and new freedom are heady feeling that can cause questions to arise about worth and value. Let the Love in and enjoy the freedom as Spirit supports the upliftment of all. – St..Germain

The discovery of who you are is very much like finding hidden treasure. It can catch you un aware and yet it changes al the you will ever be. The golden dreams and silver hopes, interwoven with the jewels of self-awareness offers fulfillment beyond measure. Accept the divine inheritance that is yours. – St. Germain

The door to the inner self is opening, The light of intrigue shines through to invite you to step in. Open the door and find the glory that awaits you, in quiet country lanes, glorious mountains and peaceful valleys. Pause by a river or sit beneath an ancient tree and remember, remember this beauty and wonder is who you truly are. – St. Germain

ST. GERMAIN'S MESSAGE

Feel within self to find the power to come up over the ways of Illusion. It is no longer an interesting thought, but a Divine wisdom. As you heal yourself you assist all of humanity in their healing.

When the separation from self brings the tendency to say what ever crosses the mind or exercise the “right” to be cruel, brutal and destructive, remember that every action has an equal and opposite reaction. We see that so often those who engage in the most hurtful

words and deeds are the first to demand gentleness and compassion from others. The wounds of lifetimes are bringing up the reactions of the EGO, that always wants retribution and revenge. If there is the willingness to listen within., it is almost as though one might feel the lightest touch of the Goddess saying, “Wait, be patient, how would you feel if this action that you plan were brought against you?” To speak without consideration, to say words of condemnation or violation of self and others does not prove power. It shows the fear of weakness that undermines personal power. Each being is so much stronger than they would believe.

Taking time to consider the energy that is being carried into each day and realize that the more focus that is placed on negative action the easier it is to act negatively, but also the more negative returns come back along the pathways of negative output. The positive output draws positive return and creates neuropathways of magnetic attraction that brings far more blessings into the life. **INCLUDE SPIRIT IN YOUR DAILY AFFAIRS.** This is not the appearance of being religious, but the deep faith and natural response to the Divine in life all of the time. To commune with your Spirit opens the direct connection with the Love and compassion. This redirects where and how thoughts flow and how the responses to daily affairs can move in ways that open new doors in life or simply close doors in one’s face. Prayer is as unique as any other form of communication. Meditation is a form of inner listening, so quieting the mind is an important way of getting answers to the questions that seem to have no answers. **GOD** is very polite and will not speak when you are speaking, so if your mind is always chattering about this and that, **GOD** remains quiet. **GOD** has no necessity to attempt to shout down the EGO. In these times where most everyone is talking and no one is listening, the discipline of really being willing to hear what others have to say is unique.

How is your vocabulary? There are thousands of words in many different languages that express feelings and emotions, as well as thoughts and ideas in positive ways. As the effort is made to add five new positive words to your vocabulary each day, you begin to feel the expansion of the mind. Attempt to share your thoughts in new and different ways that broaden your perspective. Accept that opinions are just that and no one’s opinion is absolutely correct. Being a Democrat or a Republican is a concept rather than a personal statement of fact. Being of one religion or another can support the spiritual fiber of your being or create a battleground. **IF YOU HAVE TO FIGHT TO GET SOMETHING, THEN YOU MUST FIGHT TO**

KEEP IT AND THERE IS NO PLACE FOR PEACE IN THE LIFE AT WAR.

The more that the paradigms of life on Earth are changing the more logic reveals itself to be highly illogical. **PROOF** means that one has gathered a body of one's peers who believe the same thing as you do and therefore, agree with the idea. If those who gather do not share the same belief then, apparently, nothing has been proven. Within the depths of self there lies the **Eternal Wisdom of the Ages** which requires no outer proof. This **Wisdom** is an awareness of **Truth** that is not tinged with opinion. The **Living Truth** that has stood through all of time does not consider war important. The consistent discovery of new levels of understanding makes life wonderful without conflict.

When someone says "No one has a right to enter my home without permission" and then goes to the home of another and enters without regard it is a violation of principal as well as physical law. There is a breakdown in the ability to recognize that laws, physical or **Divine** apply to everyone and no one is above the necessity to live in harmony. Walking around, looking for flaws in others simply magnifies the fear of having one's own flaws revealed. This **Revelation** can be difficult to take in and yet, there must be the courage to accept that many of the wrongs that are noted in others are only mirror reflections of old habits in self that now, of necessity, must be forgiven.

The **EGO** loves to point out weaknesses and flaws in others in order to divert attention from its own weaknesses and fears. Name calling is a personal indictment and those who celebrate this practice are aligning themselves with the energy of karmic return. **Karma** is not prejudiced. **Karma** holds no judgment. It operates on laws that were set in place before humanity decided to overlook the laws of balance. If it were not for karmic balance humanity would be totally devastated. **Karma** bring the stability, on a cosmic level, for healing that overwhelms the **EGO** mind. It is up to each individual to discipline themselves and find the inner connection to **Spirit**, rather than make decisions for others without regard of circumstances and requirements.

Because of the law of **FREEWILL**, We the **Masters** assisting the **Earth**, are required to wait until there is a clarity within the person, before we can offer support and guidance. There have been misconceptions taught throughout time, that the **Masters** must and should take care of everything that is happening on **Earth** and make humanity do what they should. The idea of a parental society has gone beyond caring and

consideration to domination and control. The **Idea** that a child must "obey" the parent, a wife must "obey" her husband or people must totally "obey" without question what a leader of a country or community says countermands **FREEWILL**. When the person is well with self, the necessity to dominate diminishes to the point that equality is comfortable.

The ability to feel—the emotions of others, the pain that has been pushed away for eons, the necessity to recognize the inner power and worth that have been hidden by the **Illusion**—is returning after lifetimes of doubt that it could even exist. The **Ancient Magick** is **Revealing** itself in **Miraculous** ways that remind people that they are stronger, wiser and far more capable than they would dare to accept.

We desire that everyone would forgive measuring against others for proof of value and accept that you are unique, one of a kind and therefore, priceless in a way that cannot be measured against anyone else. The hatred that is so evident has been held inside and hidden from view for so long that it can no longer be contained. The **Violet Flame** transmutes the hatred into neutral, useable energy that can then be used for new good. We hold the intensions that all of humanity will be willing to leave the old, outmoded, worn-out ways of war behind. It is a game that no one wins for long. Those who think that they have won, must constantly be on guard against someone moving in to take away what has been vanquished. People have moved to the place that the regard for life is almost forgotten in the thirst for winning and desire to destroy the "enemy". Those who approach the borders of the **United States** are symbols of the devastation that comes from this disregard for life. When the leader of a country hates people no one can truly ever win. The smug satisfaction of the **EGO** in a moment of victory can turn like a wounded animal, if that victory is threatened, whether the threat is real or imagined. We stand in **LOVE** and **FAITH** that humanity will, indeed, come home to self and allow that every **Soul** is of value. As the wounds of the **Illusion** begin to heal the wonder of what exists within each being is progressively revealed. We are with you every step so that in the moment there is a desire for change We can help. I remain your most humble servant. **I AM** the **Lord St. Germain**
