SPRING IS ON ITS WAY!! HAPPY EASTER!

This is the alter for the Spring Equinox/Full Moon ritual on March 20, 2019. The large crystal on the alter came to us from our friend Linda Lube, who passed away in January of this year. She called the crystal "the Mother Mary" crystal. St. Germain suggested that we name the crystal Isolde after the Irish Goddess of earth and love. It is about three feet tall and has an extremely powerful, loving energy of transformation.

CD and MP3s are available of the Ritual. Give me a call or email and I will send you a recording.

Join us, in 2019, by signing up for the Personal Growth package. This has proven to be one of the most popular offerings that St. Germain has given. People are excited about the changes in their lives and express joyful anticipation for the future. Changes on all levels are bringing a whole new lease on life as we evolve into New Humans. This year St. Germain's Teachings, which are a part of the Personal Growth Package, will focus on how the Path of Personal

Growth Leads Inward, calling us to focus on the connection to our most intimate and personal self.

Spring Intensive

It is time to begin to consider our May Intensive. St. Germain is taking us to new levels of self-awareness all of the time. You have been the greatest mystery. It is time to discover your inner wisdom and enlightenment with "Finding the Joy of Greater Self-wisdom and Inner Knowing". The intensive will be May 17, 18 and 19, 2019.

As the paradigms are clearly changing and everything seems to be in some level of limbo, we are being directed to find the home base of Spirit within and feel the firm foundation we have, while holding the promise of greater good somewhere beyond the physical world. We are now being called to remember how to blend the best of our spiritual world and our physical world, so that we can live what we have searched for, for life times, here and now. Feel St. Germain's Love, compassion and wisdom as he gently and directly shows us what we have been waiting for, to live as Spiritual Humans.

We invite you to join us in person. Call or email Molly for more information.

CDs and MP3s will be available.

The April group is Free Will and Personal Choice. There seems to be an inner war over personal

expression and a desire to “do the right thing”. People are demanding the right to say and do as they please, while expecting others to do what is right or expected. Free Will is a gift from the Creator. It is the Divine allowing of each Soul to make wise choices based on the guidance of Spirit within. Lifetimes of Illusion have changed the focus from listening to the inner guidance to consulting the EGO, which looks into the world and bases its directives on the outer world’s logical ideas. The necessity to find the clear truth within requires that the mind be blended with the Soul self for a balance that has not existed in thousands of years. The group will be April 14, at 2 pm MDST.

This is Dorian’s car. We were supposed to get 6 to 8 inches of snow. We got 2 ½ feet the last week end of March.

St. Germain continues The Path of Personal Growth Leads Inward with the April Teaching, The EGO: Why It Is with Us. Throughout time the EGO has been characterized as “The Devil” that inspires the chaos of life. We ask why do we have EGO and how do we “get rid of it”? The churches have spoken of killing the EGO or exorcising it like a demon. The EGO was created in the beginning of Soul moving to physical form. Its intension, to help remind the Soul that the physical body can be damaged. St. Germain will elucidate on how the EGO came to be what and where it is in these times. The Teaching will be April 10, 2019 at 7 PM, MDST.

The call-in for the Teaching is on the second Wednesday evening of each month at 7 pm MT.

Our call-ins for the Q&A are on the fourth Wednesday evening each month at 7 pm MST. The call-ins allow you to join in to hear the teaching and ask questions at the Q&A.

If you haven’t had the experience of the Teachings that St. Germain is offering this year they really help us to understand what is going on. It just might be worth your while to check them out. The deep healing power of the Master is there to experience again and again as you listen to the awesome wisdom that he brings. CDs are \$15 for each set—Teachings or Q&A. It is \$25 to call in one time or \$40 for both sessions each month. Postage and handling are separate.

ASTROLOGY

NEW MOON IN ARIES – APRIL 5

This New Moon marks internal new beginnings that can bring new ideas, new creations and the energy to move forward with the imagination and determination to bring things to fruition in the future. Venus, Neptune and Mercury are conjoined in Pisces which adds the power of the dreamer to the energy investment in new goals and a new start in any direction that calls for patience, gentleness and finesse. Chiron hovers at the beginning of Aries and the wounded Healer is taking the time to test the options that it may take during this Arian push into spring.

Jupiter is preparing to go retrograde on April 10th and remains retrograde until the 11th of August. Jupiter makes a wide trine to the New Moon and can contribute to the desire to spread one's wings, get out and get away and accomplish all of the dreams that seem to have been waiting until this moment to blossom. Jupiter squares the Pisces planets at this New Moon, adding an element of over zealotness that requires attention. Impatience could affect your creations a bit like pulling the petals off a flower to hasten its blooming.

This New Moon will form a T-square Saturn and Pluto in Capricorn are conjunct the South Node of the Moon opposing the Moon's North Node in Cancer creating internal pulls that require attention. The energy of Mars ruled Aries wants to move forward, get ahead and even move out beyond the crowd. Saturn advises a more conservative approach to the flow of springs upward swing. There can be emotional reactions to the restrictions that Saturn (parental influence) applies and the inner child may feel rebellious, while questioning the wisdom of charging blindly ahead. Pluto continues its movement of transformation and any devious plots or plans can either be revealed for what they are or fall apart because they are based on old, outmoded formulas.

As Jupiter will turn retrograde during April, Pluto goes retrograde on the 24th of April and remains in backward motion until the 3rd of October. Saturn starts its retrograde on April 29th and completes the reverse cycle on September 18. When planets go retrograde, it is almost like a vacation from the lessons that the forward moving planets bring us. We get a chance to integrate what has been going on in the particular areas of life that the retrograde planets influence. The Capricorn influence keeps revealing what has been going on behind the scenes throughout recorded time

and even before. This New Moon can turn the discoveries of what requires change to the inner most places of self. There might be a feeling of needing to get away from outer things, but everywhere you go the necessity for inner change goes with you.

The feeling of sap rising within self can bring a flood of extra energy as Spring brings everything to life. The desire to move is important. Walking, running, just getting out on the land, if possible, helps to keep a harmonious feeling within at this New Moon.

FULL MOON IN LIBRA – APRIL 19

Native American tribes have named the Full Moon in April the pink Moon because April is the month when the pink flox flowers of spring begin to bloom.

In astrology, the Cardinal signs, Aries, Cancer, Libra and Capricorn are considered the signs of leadership. These are the signs that form the “bones” of the horoscope. Aries-East, Cancer-North, Libra-West and Capricorn South. The fixed signs-Taurus, Leo, Scorpio and Aquarius are considered the signs that get things done. They have the stick-to-itiveness to stay with a project until it is finished. The challenge for these signs is to recognize when things are complete. The mutable signs-Gemini, Virgo, Sagittarius and Pisces are the flexible ones who can move easily among many tasks. They are often the go getters. The challenge is to stay focused with so many irons in the fire.

For all who have planets in the cardinal signs this Full Moon will offer multiple opportunities to set new goals or accomplish things that have been waiting to be completed. The Sun in Aries keeps the energy high while the Full Moon in Libra calls for patience and allowing the beauty of Spring to be appreciated. Aries is about aggressive accomplishments, while Libra says, “Stop and smell the roses”. It will be up to each person to find the appropriate balance in their life because if there is a tendency to ignore the inner signals to take it easy, nature will make sure to get everyone's attention. After sitting or staying indoors during the winter months it would be wise to move gently into the more aggressive activities.

The Full Moon is involved in a T-square, including Saturn and Pluto in Capricorn and the energy of the Moon's Node. All of this intensity is increasing the feeling of having to “do something” even if you do not know what it is. Saturn does call for a much more

grounded approach so there may be the inner sense of having one foot on the brakes and the other foot on the accelerator. If you don't know what to do, wait. If you cannot think of anything to say, just listen. This is a time of discovering new ways to operate in the new energies. Since Saturn and Pluto are at the top of the T-square the emphasis is on getting clear, within self, where the influences of the old order are hampering the possibility to make quantum leaps in your spiritual growth while seeing greater success in the physical world at the same time. If the old ways just are not working it is time to experiment with things that you might have doubted could succeed. The energy of the time suggest that you "walk to the edge of your comfort zone and take one more step" and be amazed at what you find when you allow yourself to move forward. Saturn provides stability, but too much caution can lead to stagnation.

Just before this Full Moon Mercury moves into Aries and adds the mental energy to the physical push. Two days after the Full Moon Venus jumps into the flow of Spring by joining Mercury and the Sun in the Arian excitement that it is time to get moving.

Mars, ruler of Aries, is in Gemini and this can cause the mind to go so fast that there is a tendency to miss important details. There can be the frustration of finding that if one step is missed the "recipe" could not be what it was hoped to be. Be focused when driving so that you do not go breezing by an important turn. As the major energy and increased stamina of this Full Moon is used wisely you can come through with a great sense of accomplishment.

Do remember: It is not what life brings you, but how you are with what life brings that matters.

The Popo Agie (pronounced Popo Zha with a soft a sound) River runs through Lander City Park. The river is finally beginning to thaw and it is lovely to go to the park and sit and listen to the water flowing again. Baldwin Creek runs behind our property, but it takes longer for it to thaw out in spring.

As the Spring melt progresses the ducks are enjoying having the river to bathe in once more.

QUOTES FOR THE MONTH from St. Germain

Self-love is the fulcrum of all love. It is the anchor for all the expressions of your love. – Lazaris

To be yourself in a world that is constantly trying to make you something less is the greatest accomplishment. – Ralph Waldo Emerson

Only by the challenges of life can the beautiful, the sweet, the fulfilling be appreciated and embraced. – St. Germain

Through the walls of depression and conflict, joy flows like golden veins through marble. Would you attempt to be only the marble or only the joy when you can be all of it? -- St. Germain

ST. GERMAIN'S MESSAGE

We walk among humanity all over the planet, observing the changes that are occurring and where the trends of the times are moving humanity. The determination to look for answers outside of self and the entrenched need to lay blame somewhere, on self and /or others have risen to the surface so that there can be no doubt that these are actions that require to be forgiven as a part of the life and transmuted so that the energy is directed in more positive and fulfilling ways. The EGO is on full defensive to prevent the commitment, clarity and closeness that is necessary for each individual to enter into the holy union with self, God and the whole of humanity.

Justice is portrayed as a woman with a blindfold and scales. The blindfold was intended to represent objectivity and noninvolvement. However, over time the blindfold has come to stand for the refusal to see clearly what is going on. It has come to stand for the law looking the other way, when the one being tried can pay the price for “freedom”. REVELATION is making sure that, not only the masks that have hidden atrocities and those who committed them, but the blindfolds that denied having to look at what has been going on for thousands of years, are now fully removed. The imbalances of buying favors to keep the facades of propriety in place are being brought to the

fore. These revelations are not revealed to stir anger against others, as much as to cause everyone to take a good look at the multitude of temptations that exist for each individual. The need to direct attention to what others are doing so that “what I am doing isn’t in the limelight” is even being revealed. There is no one who is so guiltless that they can “cast the first stone” at the thoughts, beliefs, actions or behavior of anyone else. If what someone else is creating bothers you, then it is time to discover, within self, “what do I require to change within myself?” If making others change first was truly workable in the world, things would be different from what they are; not always necessarily better, but different. By Divine Law change must begin within self, first. The refusal of personal change has become an energy drain that people are feeling as exhaustion. The resistance to move forward denies greater good in the individual life. The focus on money as the healer of all problems has become the modern blindfold. Money is not the root of all evil. It is a distraction from the unlimited potential that belongs to each person. When the mind points out, “If I had the money, I could do anything”, what is not considered is there is still the necessity to motivate, to create a life that is fulfilling and the money won’t do that by itself.

Many people, actually have more money than they ever have, but still don’t believe that it is enough. So many people have decided that the easy way out is to just steal from others. Unfortunately, more often than not those who suffer the most from the theft are those who are looking for *easy money* themselves. Being divorced from the inner connection to self, causes gullibility. At every point in life, where there is a choice to be made, there is a choice for the *easy way* or the way that is aligned with *Divine purpose*. The EGO sneers at Divine purpose and calls it limiting. What has been lost in the Illusion for so long is the Truth that Divine purpose is pro human evolution and ultimate success. The ability to feel the power of choice within self makes all the difference in outcomes. The quick, easy way is rarely examined for potential pitfalls in the future. The EGO is so sure that it has covered all of the bases and hasn’t missed any points that could allow discovery of misconduct. The EGO is so single-minded that it has tunnel vision. Logic is literal. Life is not. Life is filled with all manner of possibilities that are on a spectrum from *most unpleasant* to *amazingly wonderful*. The EGO operates on the idea that everything will go “just as planned” and then after the idea is implemented the EGO begins to point out all of the flaws in the plan and places where loss can occur. When life is lived on the basis of what will be lost, it slowly ceases to be life

and becomes a fearful paralysis that denies fulfillment altogether. This foundation of fear, very often, will begin to operate as people move into “modern maturity”. At some point the EGO begins to deal out information about the loss of security, of health, of mobility, of anything that is considered “something that I cannot live without”. Since it is a general consensus of opinion of society around the world that these beliefs are right, as the person moves into middle life there are opportunities for choice about “getting old” or aging gracefully and the EGO encourages following the same old beliefs mentality, (what would they say if I don’t do what everyone else is doing?) rather than choices for a better future. It takes courage to live in Divine Purpose, making choices for a better life that doesn’t come solely from amassing money for “old age”. It requires the loving determination to keep the focus of life on positive outcomes, rather than negative ones. **HUMANITY DOES NOT REALIZE JUST HOW POWERFUL THEY ARE AND HOW THEY CREATE THE LIFE THEY LIVE BY WHAT THEY THINK ABOUT ALL OF THE TIME AND HOW THEY SPEAK ABOUT THEIR LIFE.** So many people talk about what is and has been wrong with their life. They portray themselves as victims and tell every person who crosses their path their “sad” story. Every time they tell their story again it brings them further and further down into a state of desperation, because no one can save them from themselves. The victim’s story is supposed to make others feel sorry for them and perhaps join in the “game” of *I dare you to try to save me*. It is a very compelling game and it binds people to the victim as long as they keep trying to save the victim. The method may be different for each Savior and/or victim; some saviors want to show the victim how they are wrong, while others want to get the victim to see where they are doing this to themselves. The victim doesn’t care what the saviors are saying, as long as they just keep donating energy by trying to change them. The victim just keeps finding new people to “share” their story with so there will always be someone giving their energy away to the victim by wanting to be the one who gets them to change. This is an insidious control game that heals nothing and simply makes prisoners of the players, both victims and savior.

The lessons that life brings are many faceted, but it is not what life brings that is the most important, but what each being chooses to make of what life brings. The changes that are occurring continue to move each and every person forward. Some are resisting and the conflict keeps them feeling angry, unfulfilled and, if not totally ill, at least sickly in ways that do not seem to

completely go away. Some people seem to remain oblivious to the changes and yet find that things feel strange. Everything is shifting and changing moment by moment and the reference points of the past do not seem to coincide with how things are working now. Those who are attempting to hide actions and activities seem to find that it is almost as though they are being followed or “spied upon”. Revelation is simply uncovering all of the hidden places, things, judgments and mis-creations that humanity has believed would never be known. Secrets have been the foundation of Illusion. Now the constructs of Illusion are breaking apart and falling away like dust in the wind. The past no longer provides the map to the future. The main reason that “history has repeated itself again and again” is that humans keep looking back instead of moving forward. The fear of the unknown is daunting, only because the unknown cannot be controlled.

The questions of the old order are not always applicable to the depth of understanding of self that is required as the New Order is emerging. When We speak of the New Order it is not just another way to say and do the same old things. The call to know yourself and include yourself in everything that you bring into being, means that you also are accountable for your creations. Ideology, theory and speculation stand on the edge of creation, with the belief that there can be a quick escape if things do not work the way they were assumed to.

The discomfort of the emerging realization that each person is, indeed, responsible for their own creations is not a new concept. It has been there all along, but the EGO always said that “it does not apply to me, only to others”. Revelation is bringing the understanding of what Mastery is, home to each and every being. **MASTERY IS NOT JUST FOR SOME. IT IS ALL INCLUSIVE!!** No longer can the games of better than, worse than or the opportunity to acquire things that have not been earned, in order to keep up facades of what was, can continue. All of that ceases to be important as that energies move from purely physical endeavors to an all encompassing recognition of Divine Love that the Illusion has carefully spent eons of time attempting to hide or destroy.

THE HOME COMING, THE AWAKENING, THE NEW ORDER, ASCENSION are all definitions of the changes that cannot now be denied. Religious, spiritual, metaphysical are definitions of separation. They are very much like the defining terms of levels of skin, terms of emotions to feelings and they keep people out of love. As you remember who

you truly are the layers of Illusion fall away and the oneness with all shines through.

We are with you in Love, every step of the way. What is there to judge when all are one and no two are alike? I AM your most humble servant, Lord St. Germain
